Professional Experience**Data Analyst / Consultant (Independent Contractor) | Chicago, IL | 2019 - Present**

- Optimizing ETL processes by refining scripts for extracting, transforming, and loading data from diverse sources into databases and data lake, ensuring near real-time data integration for businesses requiring up-to-date insights and reporting.
- Developing and maintaining interactive dashboards and reports in Google Sheets, Excel, Power BI, and Tableau; optimizing SQL queries for data import and cleaning, and providing stakeholders with real-time insights for enhanced decision-making.
- Designed and implemented the ETL pipeline by integrating data from Salesforce into BigQuery, using SQL-based transformations to cleanse, standardize, and aggregate data, enabling real-time analytics and visualization in Looker Studio, and reducing manual reporting by 50%.
- Streamlined the ETL pipeline for a travel company by integrating CRM data into MySQL and delivering insights through Power BI, which enhanced data processing speed, refined customer segmentation, and boosted booking conversions by 25%.
- Developed customer segmentation reports and analyzed multi-source customer, loyalty program, and sales data, enabling targeted marketing strategies that increased conversion rates by 15%, improved customer retention by 12%, and optimized upselling opportunities.
- Developing predictive models for churn prediction, future trends, and customer segmentation by performing statistical and regression analysis, and other relevant techniques using Python (Pandas, Scikit-Learn, Statsmodels).
- Conducting ad-hoc and in-depth business analysis to identify growth opportunities and optimize processes, while delivering data-driven insights and consulting services to enhance operational efficiency.
- Translating business requirements into technical specifications for development teams to bridge the gap between business stakeholders and developers by converting high-level business needs into clear, actionable technical documentation.

Business Analyst / Consultant | SP GROUP LLC | Kyiv, Ukraine | 2009 – 2019

- Co-founded a travel company that grew from providing tour services to developing innovative tech solutions.
- Designed and implemented a CRM system for travel industry and hotel search platform, optimizing operations and improving efficiency.
- Expanded these solutions to multiple travel agencies, transforming the business into a leading provider of both travel services and technology.

Team Lead / Business Analyst - Consultant | SP GROUP LLC | Kyiv, Ukraine | 2014 – 2019

- Drove strategic growth by providing data-driven recommendations, helping travel companies optimize pricing strategies, customer retention, and market positioning.
- Optimize data processing and reporting accuracy by enhancing ETL scripts and SQL queries to extract, transform, and load data from multiple sources into data warehouses, streamlining integration and ensuring faster workflows and more precise business insights.
- Enhanced decision-making by developing interactive dashboards and reports using Power BI, Tableau, and Excel, providing stakeholders with real-time insights into bookings, customer behavior, and market trends.
- Boosted marketing effectiveness by conducting customer segmentation analysis, leading to a 10% increase in targeted campaign performance and improved loyalty program engagement.
- Identified revenue opportunities by analyzing booking data, uncovering upselling potential and recommending higher-value service offerings to maximize sales.
- Predicted customer behavior and market trends by building statistical models (churn risk, booking likelihood, destination preferences), enabling better retention strategies, demand forecasting, and personalized marketing campaigns.
- Improved operational efficiency by converting business requirements into clear technical specifications, leading to the effective implementation of CRM and travel booking systems.

Business Analyst / Project Manager | SP GROUP LLC | Kyiv, Ukraine | 2009 – 2014

- Led the development and implementation of a hotel search system and CRM system, optimizing workflow efficiency by 35% and enhancing travel agency operations.
- Defined team goals and KPIs, aligning them with company objectives to enhance customer success strategies and improve service efficiency.
- Managed project timelines, budgets, and resources, ensuring on-time and cost-effective delivery of CRM and hotel search solutions for travel companies.
- Utilized CRM systems to track customer interactions and preferences, boosting customer satisfaction and retention by 20% through personalized service.
- Analyzed customer feedback to identify trends and areas for service improvement, leading to a 15% increase in customer satisfaction.
- Implemented customer loyalty programs and personalized incentives, driving repeat bookings and long-term customer engagement.
- Translated business requirements into technical solutions through cross-functional collaboration with product and development teams, ensuring seamless system functionality and integration.

Head of Sales / Business Analyst | Dnipro LLC | Kyiv, Ukraine | 2004 – 2009

- Managed daily operations across sales, marketing, customer service, and tour operations to drive business growth.
- Optimized efficiency by developing policies, improving processes, and ensuring service quality.
- Analyzed market trends, customer needs, and competitor activities to identify opportunities and refine sales strategies.
- Built strong partnerships with suppliers, airlines, and travel agencies while negotiating contracts to enhance business expansion.

Oil & Gas Market Analyst / Sales Manager | Linol LLC | Kyiv, Ukraine | 2000 – 2004

- Analyzed oil and gas market trends, including price fluctuations, supply-demand shifts, and competitor activities.
- Identified new business opportunities, developed sales strategies, and managed budgets to drive revenue growth.
- Developed customized solutions by building strong relationships and understanding key client needs.

- Negotiated contracts and agreements to secure favorable terms and expanded market presence.

Oil & Gas Market Analyst | Lancedor LLC | Brussels, Belgium | 1993 – 2000

- Conducted market research and forecasting to analyze global oil and gas trends, supply-demand shifts, and price movements.
 - Assessed trading risks, identified new market opportunities, and provided insights to optimize business strategies.
 - Monitored financial performance, tracked key performance indicators (KPIs), and supported budget and cash flow management.
 - Maintained relationships with key stakeholders, negotiated contracts, and ensured favorable trading terms.
-
