SUMMARY

A strategic data professional with a deep interest in exploring, transforming, and deriving insights from data. Proficient in SQL, Python, R, Power BI, and Tableau, with experience in ETL pipeline design, data modeling, and workflow automation. Strong background in cloud technologies (Azure, Snowflake, Apache Spark, Hadoop) for scalable, high-performance data solutions.

TECHNICAL SKILLS

Certifications: Azure Data Engineer Associate, Google Project Management

Programming Languages: Python, R, SQL, PySpark

Data Visualization and Analysis: Power BI, Alteryx, Tableau, MS Excel

Technologies: MySQL, Snowflake, MongoDB, Microsoft Azure, Apache Spark, Apache Airflow, Hadoop, UiPath, Appian

Business Competencies: Data Analytics, Multi-tasking Skills, Finance, Customer Service Experience, SQL Report Writing

PROJECT EXPERIENCE

Healthcare Data Platform Architecture Design

- Designed an Azure-based healthcare data architecture to resolve silos, ensuring scalability, security, and HIPAA compliance
- Proposed a data pipeline using Azure services (ADF, Synapse Analytics, Databricks) to integrate structured, unstructured data
- Outlined a governance framework with Azure Purview for security, Power BI for dashboards, and ML models for insights

Optimized Sales and Market Penetration | Gardein

- Performed advanced regression analysis to identify key factors influencing unit sales, demand patterns, and regional growth
- Achieved a 71% explanatory power in sales prediction, uncovering trends with Tableau for enhanced market insights
- Advised data-driven pricing and marketing strategies that could potentially lead to a \$5M annual revenue increase for Gardein

Walmart Sales Forecast | Walmart

- Analyzed 500k records using MySQL to extract insights on weekly sales performance across 2,000+ stores in US
- Determined peak holiday weeks and discovered larger stores experienced an 18% increase in sales compared to smaller stores
- Implemented Tableau to create visualizations that communicated sales trends and store performance

WORK EXPERIENCE

University of Texas at Dallas | Student Assistant (Housing Support Analyst)

Jun 2024-May 2025

- Engineered interactive dashboards to monitor KPIs like occupancy and maintenance issues, improving operational efficiency
- Streamlined maintenance response times by 10% through data-driven tracking of service requests and issue resolution
- Processed 50+ monthly housing inspection reports in Excel, identifying key trends that enhanced service ratings by 10%

Buildwells | Site Operations Analyst

Jan 2020 - Aug 2022

- Monitored construction projects by analyzing cost and timeline data, optimizing resources, and reducing costs by 8%
- Analyzed real estate data to identify inefficiencies in material sourcing, cutting costs by 10% and improving delivery by 20%
- Conducted trend analysis on site incidents, enhancing safety measures and reducing workplace accidents by 15%

ICICI Bank | Technical Officer

Jul 2018 - Nov 2019

- Conducted real estate data analysis on 600+ mortgage and home loan applications, utilizing an in-house Property Appraisal System to assess property values and identify high-risk loans
- Applied risk assessment techniques including loan-to-value (LTV) ratios, reducing financial discrepancies by 10%
- Enhanced cross-departmental efficiency in lending operations by analyzing sales, technical, and loan data across departments

EDUCATION

University of Texas at Dallas

May 2025

Master of Science in Business Analytics and Artificial Intelligence

Achievements: Graduate Certificate in Business Decision Analytics and Data Mining

Graphic Era University

Aug 2017

Bachelor of Technology, Civil Engineering
