Detail-oriented and results-driven Junior Data Analyst with three years of experience in leveraging Tableau, SQL, Python and MS Excel to analyse complex datasets and derive actionable insights. Seeking to utilize analytical skills and data visualization expertise to contribute to the success of a dynamic organization.

PROFESSIONAL PROFILE-

Junior Data analyst

AGILE DEVELOPMENT -TRAINING CENTER - MUMBAI

September 2013 – May 2016

- Assisted senior data analysts in cleaning, validating, and analysing datasets to support business intelligence initiatives.
- Created and maintained documentation for data extraction, transformation, and loading processes to ensure data integrity and consistency.
- Participated in team meetings to discuss project progress, share insights, and propose data-driven solutions to business challenges.
- Conducted exploratory data analysis (EDA) to identify correlations and relationships between variables, contributing to the development of predictive models.
- Analysed large datasets using SQL to extract, transform, and load data for reporting and analysis purposes.
- Developed interactive dashboards and visualizations in Tableau to communicate insights to stakeholders, resulting in a 20% increase in data-driven decision-making.
- Conducted ad-hoc data analysis to identify trends, patterns, and anomalies, leading to improved business processes and cost savings.
- Collaborated with cross-functional teams to gather requirements and define key performance indicators (KPIs) for reporting initiatives.
- Automated manual reporting processes using MS Excel macros, reducing reporting time by 30%.

Education-

August 2008- May-2012

Uttar Pradesh Technical University - Lucknow , UP - India
Bachelor's in Computer Science & Technology

May 2012

ADDITIONAL SKILLS-

- Proficient in Tableau for data visualization and dashboard development.
- Strong command of SQL for data querying, manipulation, and analysis.
- Advanced skills in MS Excel, including pivot tables, VLOOKUP, and macros.
- Familiarity with statistical analysis techniques and tools such as Python.
- Excellent communication and collaboration skills, with a proven ability to work effectively in cross-functional teams.
