CompTIA A+ Certified | Seeking to grow in a dynamic IT environment

Dedicated to learning and applying new technologies to drive IT solutions. Experienced with Active Directory, Office 365, and PowerShell for IT support and automation.

WORK EXPERIENCE

Arcturus Therapeutics

Mar 2025 - Present

IT Operations Intern

San Diego, CA

- Assisting in monitoring and maintaining a hybrid Windows environment, including servers, networks, and Office 365 services
- Troubleshooting hardware, software, and connectivity issues with end-users, documenting solutions in Jira tickets
- Managing system updates, security patches, and routine maintenance for Windows devices
- Maintaining technical documentation to streamline IT operations and user support

Private Tutor

Aug 2023 - May 2024

Independent tutor in Math and Computer Science

Ocala, FL

- Conducted 50+ tutoring sessions in Python and Discrete Mathematics, leading to at least a one letter grade improvement among students within a semester cycle
- Designed custom study plans for over 20 students, adapting to different learning styles
- Hosted virtual tutoring sessions via Zoom, troubleshooting technical issues to ensure smooth lessons

Moore Logistics, LLC

Jan 2021 - Aug 2023

Administrative Assistant

Ocala, FL

- Managed 100+ financial documents/month, including invoices, expense reports, and mileage logs, ensuring 100% accuracy for quarterly IFTA audits
- Coordinated nationwide logistics across 30+ states, optimizing cost and delivery schedules
- Installed and configured routers, printers, and company computers, troubleshooting software issues

TECHNICAL PROJECTS

Active Directory Home Lab

- Deployed a virtualized Windows Server 2019 domain controller in VirtualBox, configuring AD DS, DHCP, DNS, and RAS/NAT roles
- Automated the creation of User Objects and Organizational Unit management using PowerShell scripts
- Implemented RAS/NAT to route client internet traffic through the domain controller

Self-hosted DNS Server

- Deployed Pi-hole on a Raspberry Pi 2 Zero W as a primary DNS server, blocking ads and trackers at the DNS level
- Configured DNS-over-HTTPS (DoH) with Cloudflare for encrypted DNS resolution
- Integrated custom blocklists and UFW firewall rules for enhanced network security

EDUCATION & CERTIFICATIONS

Computer Science, A.S.

Sep 2024 - Present

San Diego Miramar College

San Diego, CA

- **Current Courses:** Intermediate Java, Data Structures in C++ | **GPA:** 4.0

Computer Science, A.A.

Aug 2022 - May 2024

College of Central Florida

Ocala, FL

- **Honors:** Graduated in Cum Laude | Dean's List

CompTIA A+

Feb 2025 - Feb 2028
