

SWAPNIL SAHU

Data Analyst

Mesa, AZ | (646) 427-4999 | swapnilsahu853@gmail.com | [LinkedIn](#) | [PortFolio](#)

SUMMARY

Senior Data Analyst with 5+ years of experience delivering data-driven insights across healthcare, financial services, and enterprise analytics environments. Specialized in healthcare analytics, clinical data analysis, KPI reporting, and decision-support dashboards using SQL, Python, Power BI, Snowflake, and Azure. Strong background in analytics engineering and data pipelines, enabling reliable, governed datasets for reporting and forecasting. Experienced in applying AI-assisted analytics and NLP techniques selectively to enhance healthcare insights, improve patient outcome analysis, and support operational decision-making in regulated environments.

KEY ACHIEVEMENTS

- Improved patient forecasting accuracy by 22% through predictive analytics and trend modeling in healthcare datasets.
- Reduced ETL and analytics processing time by 35% through optimized pipelines and analytics engineering practices.
- Accelerated executive reporting cycles by 40% using real-time, self-service Power BI dashboards.
- Improved engagement and insight discovery by 18% through NLP-assisted analysis of unstructured healthcare and operational data.

CORE SKILLS

- **Analytics & Business Intelligence:** Power BI, Tableau, Looker Studio, KPI Dashboards, Executive Reporting, Self-Service Analytics, Data Storytelling
- **SQL, Data Modeling & Analytics Engineering:** Advanced SQL, CTEs, Window Functions, Dimensional Modeling, Star/Snowflake Schemas, dbt, Analytics Engineering
- **Cloud Data Platforms:** Azure Data Factory, Azure Synapse, Databricks, Snowflake, AWS S3, AWS Glue, BigQuery
- **Programming & Analysis:** Python (Pandas, NumPy, Scikit-learn), PySpark, Jupyter Notebooks, Statistical Analysis, Forecasting
- **AI-Assisted & Advanced Analytics:** Predictive Analytics, Time-Series Analysis, NLP-based Text Analysis, Anomaly Detection, AI-assisted Insight Generation
- **Data Quality, Governance & Collaboration:** Data Validation, Data Observability, HIPAA Compliance, Great Expectations, Git, JIRA, Confluence, Stakeholder Engagement

EXPERIENCE

Data Analyst

COPA Health – Mesa, AZ

Dec 2024 – Present

- Lead healthcare analytics initiatives by partnering with clinical and operations stakeholders to translate business requirements into actionable insights for behavioral health care delivery and operational planning.
- Designed and maintained analytics-ready datasets using Azure Data Factory, Databricks, dbt, and Snowflake to support business reporting, KPI tracking, and executive decision-making across clinical and operational teams.
- Developed predictive and trend-analysis models to support patient forecasting, capacity planning, and outcome monitoring across behavioral health services.
- Applied NLP-based text analysis to clinical notes and assessment data to extract key indicators, supporting care trend analysis and reporting while maintaining HIPAA compliance.
- Built executive-level Power BI dashboards integrating Snowflake and Azure Synapse to support stakeholder reporting, decision support, and performance tracking for patient utilization and operational efficiency.
- Implemented data quality checks and observability frameworks using Great Expectations and monitoring tools to ensure data accuracy, consistency, and regulatory compliance.
- Collaborated with clinicians, operations leaders, and business stakeholders to translate business questions and analytical findings into decision-support solutions and measurable performance improvements.

Research Data Analyst

iHARP Lab, University of Maryland, Baltimore County, MD

Jul 2024 – Nov 2024

- Analyzed large-scale healthcare, climate, and geospatial datasets using Python and SQL to identify trends, correlations, and temporal patterns supporting academic research initiatives.
- Automated data ingestion and transformation pipelines using AWS S3, BigQuery, and workflow orchestration tools, improving data availability and analysis turnaround time.
- Developed predictive analytical models and statistical evaluations to improve research forecasting accuracy and insight reliability.
- Built interactive analytical dashboards and visualizations using Plotly Dash and Looker Studio to communicate findings to cross-functional research teams.
- Explored AI-assisted summarization and NLP techniques to support insight extraction from research documentation and reports.

Data Analyst

Accenture Solutions Pvt. Ltd. – Bangalore, India

Feb 2019 – Jul 2022

- Delivered enterprise-grade Power BI and Tableau dashboards by gathering business requirements and supporting stakeholder reporting for financial and operational KPIs, reducing manual reporting efforts by 40%.
- Designed and optimized complex SQL and Snowflake queries using CTEs, window functions, and performance tuning techniques, improving query efficiency by 30%.
- Automated recurring analytics workflows using Python, Airflow, and cloud services, saving over 25 analyst hours per month.
- Performed statistical analysis, variance analysis, and A/B testing to support business decision-making in revenue forecasting and marketing optimization initiatives.
- Partnered with data engineering and DevOps teams to align analytics outputs with CI/CD pipelines and enterprise data governance standards.

Associate Data Analyst

EXL Technologies & Solutions Pvt. Ltd. – Bangalore, India

Jun 2018 – Jan 2019

- Collected, cleaned, and transformed large datasets using SQL and Excel Power Query to improve data accuracy and reporting reliability.
- Built automated Excel and Power BI dashboards to monitor engagement, sales performance, and operational metrics.
- Conducted trend analysis and variance reporting to support quarterly business reviews and strategic planning initiatives.

EDUCATION

-
- | | |
|--|--------------------|
| • Master of Science in Information Systems | 2022 – 2024 |
| <i>University of Maryland, Baltimore County, MD</i> | |
| • Bachelor of Engineering in Computer Science and Engineering | 2014 – 2018 |
| <i>Central College of Engineering and Management, Raipur, India</i> | |
