

ABHINAV KUMAR

Richardson, Texas, 75080; +1 2149868094; abhinavkblr@gmail.com ;www.linkedin.com/in/abhinavkblr/

EDUCATION

The University of Texas at Dallas (<i>Master of Science, Information Technology and Management</i>)	June 2026
Relevant Courses: Business Data Warehousing, Advanced Statistics, OOP in Python, Data Visualisation, DBMS, HMGT, Agile Project Management Agile Project Management, Supply Chain Software with SAP Planning AI and Blockchain Innovations, Spreadsheet Modeling, System Analysis and Project Management (SAPM).	
Jain University , Bengaluru (India)	June 2024
<i>B.TECH in Computer Science and Engineering, Specialisation in Artificial Intelligence and Machine Learning</i>	GPA 8.8/10.0

TECHNICAL SKILLS

Certifications: Power BI Data Analyst Associate, Azure AI Fundamentals, Data Warehousing & BI Foundations, Salesforce Associate.
Programming Languages: Python (Pandas, NumPy, Scikit-learn, Matplotlib, TensorFlow, PyTorch), SQL (MySQL), HTML, CSS.
Software: Salesforce, Oracle EBS (exposure), SAP ERP, Microsoft Excel, Tableau, Power BI.
Core Competencies: Business Process Mapping, KPI Design, Cross-functional Collaboration, CRM Systems, Change Management, Agile, Problem Solving

PROFESSIONAL EXPERIENCE

Futureense Technologies , (Bengaluru, India)	January 2024 – May 2024
AI & ML Intern	
- Developed interactive dashboards and data hygiene reports to visualise key business metrics, detect anomalies, and improve reporting accuracy by 18%. - Supported data integration and migration efforts, assisting in cleaning and standardising records across MySQL, and Excel for churn and revenue analytics. Technologies Used: Python, SQL, Tableau, Excel (VLOOKUP, INDEX/MATCH), Salesforce, Scikit-learn, Pandas.	

PROJECT EXPERIENCE

Wealth and Health of Nations Visualisation , MS-ITM, 2 nd Semester	January 2025-May 2025
- Explored global development trends using Gapminder data on GDP, life expectancy, and population across 180+ countries from 1960 to the present. - Cleaned and merged time-series datasets, then developed an interactive animated bubble chart using Python, Plotly Express, and Pandas. - Delivered a compelling visual narrative that demonstrated disparities in health and wealth, improving understanding of global economic and public health patterns. Technologies used: Python, Plotly Express, Pandas, Jupyter Notebook, Gapminder Dataset, Tableau, and Excel.	
Inventory Optimization & Demand Forecasting Project , B.TECH, 8 th Semester	November 2023-May 2024
- Developed Simulated a retail supply chain using 6 months of sales data to optimize procurement and inventory planning. - Forecasted demand with Python (Pandas) and built a Power BI dashboard to track stock, lead times, and reorder points. - Reduced stockouts by 25% through optimized order quantities and safety stock levels. Technologies used: Python, Excel, Power BI, Pandas.	
Text-to-Image Generation Models , B.TECH, 6 th Semester	November 2022-May 2023
- Developed a GAN-based text-to-image generation model, leveraging adversarial training to synthesise high-resolution images from textual prompts while maintaining contextual alignment. - Applied NLP techniques to encode and structure textual inputs, improving the semantic relevance of generated images for enhanced user interaction and content generation. Technologies used: Python, PyTorch, GANS (Generative Adversarial Networks), NLP, Hugging Face, SQL.	

ADDITIONAL INFORMATION

Extracurricular Activities: Active member of Envision and the UTD Badminton Club; Served as Event Head of Glitch Club. Eligibility: Eligible to work in the US for internships and full-time for up to 36 months (OPT + STEM extension) without sponsorship.
