SUMMARY

Business Analyst with 4+ years of experience supporting healthcare operations and financial-services transformation through requirements analysis, KPI reporting, process improvement, UAT coordination, and stakeholder collaboration. Skilled in SQL, Power BI, Tableau, Advanced Excel, Jira, Confluence, ETL workflows, and enterprise data platforms for business intelligence, reporting automation, and decision support. Experienced in translating complex business needs into clear requirements, dashboards, governance controls, and workflow improvements that strengthen operational visibility and strategic decision-making.

TECHNICAL SKILLS

Business Analysis & Requirements	Requirement Gathering, Stakeholder Management, BRD, FRD, User Stories, Use Cases, Process Mapping, Gap Analysis, Root Cause Analysis, JAD Sessions, Change Management
Reporting & Business Intelligence	SQL, Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP), Power BI, Tableau, DAX, Power Query, KPI Dashboards, Ad-hoc Reporting, Reporting Automation, Data Storytelling
Data Analysis & Validation	Python (Pandas, NumPy), Data Validation, Data Extraction, Data Cleaning, Data Transformation, Data Reconciliation, Exploratory Data Analysis (EDA), Statistical Analysis, Forecasting
Database, ETL & Data Warehousing	ETL Processes, Data Modeling, Data Warehousing, Query Optimization, Data Integrity, Data Migration, Snowflake, Amazon Redshift, Google BigQuery, Apache Airflow
Business & Process Analytics	Cost-Benefit Evaluation, Risk Assessment, A/B Testing, Data-Driven Decision Making, Workflow Assessment, Process Optimization
CRM & Enterprise Tools	SAP, MS Dynamics NAV, Salesforce, HubSpot, Google Analytics
Cloud & Governance	AWS, Azure, Predictive Modeling, Data Governance, Cloud Data Analytics, Compliance-Focused Reporting
Methodology & Collaboration	Agile, SDLC, Jira, Confluence, MS SharePoint, MS Project, Git/GitHub, Cross-Functional Collaboration
Testing & Stakeholder Support	UAT Coordination, Stakeholder Coordination, Business Review Support, Issue Tracking, Documentation, Leadership Reporting

WORK EXPERIENCE

LabCorp, MA, USA | Business Analyst

Nov 2023 - Present

- Supported patient-access analytics modernization across multi-location clinical operations, gathering requirements, mapping scheduling workflows, and aligning KPI reporting with leadership priorities.
- Translated stakeholder needs into Power BI dashboards using DAX and Power Query, improving scheduling visibility and reducing healthcare reporting turnaround by 22%.
- Analyzed appointment-demand trends with Python, Pandas, NumPy, and statistical analysis, helping workforce-planning teams forecast diagnostic capacity across high-volume service locations.
- Coordinated metric-delivery workflows across Snowflake, Amazon Redshift, and Apache Airflow, validating business rules, reconciliation logic, and performance tracking requirements.
- Created executive decision-support reports across 8M+ patient scheduling records, helping leaders identify utilization patterns, access delays, and service-performance inefficiencies.

- Applied Predictive Modeling and Exploratory Data Analysis to evaluate outpatient engagement behaviors, improving forecasting precision by 17% for diagnostic-capacity planning.
- Developed KPI scorecards for operational trend reviews, business-performance discussions, and leadership reporting alignment, reducing reliance on manual spreadsheet consolidation.
- Defined query optimization controls and Data Governance standards, strengthening reporting consistency, data accuracy, and cross-functional healthcare analytics review processes.
- Used A/B Testing and workflow-efficiency assessments to compare patient-intake process changes, increasing dashboard adoption by 21% among operations managers.
- Led UAT coordination, SDLC collaboration, and analytics-delivery reviews, ensuring requirements, compliance priorities, and leadership expectations were validated before release.

IBM, India | Business Analyst

May 2020 - Jun 2022

- Supported enterprise finance analytics initiatives focused on reconciliation governance, KPI visibility, revenue assurance, and decision support across multi-department banking operations.
- Streamlined Tableau reporting workflows using SQL, Advanced Excel, and Pivot Tables, reducing executive insight-delivery timelines by 19% for finance stakeholders.
- Translated reconciliation rules into MySQL, ETL Processes, and data-transformation workflows, improving manual validation consistency by 24% across finance operations.
- Generated financial performance scorecards across 3M+ transaction records, helping leadership identify utilization anomalies, reconciliation gaps, and distributed reporting inefficiencies.
- Coordinated Python, Pandas, and NumPy forecasting assessments, improving monthly revenue-planning accuracy by 17% across enterprise financial-review and budgeting initiatives.
- Investigated operational-risk discrepancies using VLOOKUP, data-validation controls, and audit-support reviews to improve exception tracking across finance management activities.
- Designed KPI-monitoring dashboards supporting revenue-assurance visibility, stakeholder alignment, and leadership decision-making workflows for financial operations management teams.
- Optimized automation procedures by aligning Google BigQuery, Azure, and governance methodologies with finance decision-support delivery across operational business units.
- Facilitated cross-functional analytics discussions, stakeholder coordination meetings, and workflow reviews to align deliverables with compliance priorities and modernization initiatives.
- Produced ad-hoc financial intelligence summaries using Salesforce, SAP, and business-trend evaluation methodologies to improve stakeholder productivity and operational visibility.
- Assessed UAT outcomes, Jira tracking activities, and Confluence documentation reviews, supporting analytics-delivery coordination for enterprise finance transformation initiatives.

EDUCATION

Masters in Business Analytics

- Clark University, Worcester, MA, USA

Bachelors in Electronics and Communication Engineering

- Mahatma Gandhi Institute of Technology
