SUMMARY

Experienced data professional with expertise in data analysis, annotation, and modeling for AI, ML, and NLP applications. Proven success in improving model accuracy and data quality in the technology and finance sectors. Proficient in Python, SQL, Excel, and Power BI.

EXPERIENCE

AI Data Quality Analyst

2024 - Present

RWS Group

- Annotate 500+ entries for grammar, syntax, sentiment, and audio sentiment, contributing to 90% achievement of the model quality target
- Execute QA and A/B testing to enhance data quality by 20%

Data Analyst

2024 - 2025

Intuit Inc. via The Mom Project Inc.

- Improved the TurboTax model by evaluating key metrics (precision, recall, F1 score), resulting in a 98% F1 score and enhancing user experience
- Optimized data processing using Python, SQL, XML, and JSON; implemented Google Document AI with LLM-based extraction to enhance financial data processing
- Collaborated with global teams to reduce delivery time by 20% while monitoring KPIs to enhance system performance

Data Analyst

2022 - 2023

Apple Inc. via Apex Systems

- Improved 3D data quality by 20%, leading to a significant reduction in errors
- Collaborated closely with the ML science team to ensure alignment on the utilization of in-house software and tools for labeling images for the 3D map team

SKILLS

Technical Skills

Databricks, SQL, Python, Excel, Power BI, Tableau, Document AI, Google Workspace, Microsoft Office suite, MS Project, Salesforce, SAP CRM

EDUCATION

Master of Engineering Management, Business Analytics, Lamar University

Bachelor of Science in Computer Engineering, Azad University
