Professional Summary

Detail-oriented analyst with experience in program administration, records management, stakeholder engagement, and data analysis across government, military, and contractor environments. Skilled in project coordination, compliance, and process improvement. Active Secret Clearance. Bachelor's in Economics, minor in Political Science. Veteran, U.S. Army and Air National Guard.

Professional Experience

Johnson & Johnson — Contract — Research Analyst, AI & Ethics

March 2025 – August 2025 | Remote, NJ Home Office

- Researched ethical considerations and compliance requirements for AI initiatives within healthcare and pharmaceutical contexts.
- Developed policy briefs and reports to inform leadership on AI risk frameworks, aligning with NIST and OSTP guidelines.
- Collaborated with cross-functional teams to evaluate AI applications for transparency, fairness, and regulatory compliance.
- Supported preparation of deliverables for internal stakeholders and external regulators.

General Dynamics Information Technology (GDIT) — Operations Analyst (U.S. Department of State Contractor)

March 2023 – March 2025 | Remote, NJ Home Office

- Coordinated program operations and supported policy implementation across multiple stakeholders.
- Performed data validation, quality control, and compliance analysis to ensure program integrity.
- Developed SOPs, training materials, and documentation; assisted with fraud risk assessment efforts.
- Researched and verified case histories by cross-referencing multiple contract and employment databases to support Iraqi refugee employment verification for U.S. government processing.

InfiniSource Consulting Solutions — Records Management Specialist (Department of Homeland Security)

May 2022 – March 2023 | Egg Harbor Township, NJ

- Managed classified and unclassified records in compliance with DHS records policies and retention schedules.
 - Supported digitization/migration of physical records to electronic systems; executed archiving and retrieval tasks.
 - Created and developed technical documentation and storage methods.
-

Military Experience

New Jersey Air National Guard — Munitions Systems Specialist

November 2019 – Present | Atlantic City, NJ

- Maintained munitions stockpiles, ensuring compliance with Air Force and DoD regulations.
- Conducted inventory control, risk assessments, and operational readiness evaluations.
- Trained and mentored junior Airmen in safety compliance and logistics.

New Jersey Army National Guard — Human Resources Specialist

April 2017 – November 2019 | Fords, NJ

- Managed personnel records, payroll, and core administrative functions.
- Assisted with workforce planning, recruitment, and career progression advising.
