PROFILE

Creative and detail-oriented Full-stack Developer with 3 years of hands-on experience in building secure and scalable web applications. Skilled in both front-end and back-end development with strong expertise in Scala Play Framework, Next.js, and PostgreSQL. Passionate about delivering high-quality solutions, improving system performance, and collaborating across teams to solve real-world problems.

WORK EXPERIENCE

Amazon SMF3

2021- PRESENT

Problem Solver

- Resolved workflow issues to minimize delays and errors in package flow.
- Collaborated with managers to improve warehouse efficiency.

PROJECTS

- Authentication & Security System - Next.js, Scala Play, PostgreSQL
- Built secure JWT + CSRF authentication flow for frontend and backend.
- Implemented password reset with hashed tokens and Firebase login.
- Added role-based access control for dashboard.
- E-commerce Dashboard - Next.js, Play Framework, Docker
- Developed a responsive dashboard with dark/light mode and mobile sidebar.
- Created APIs for product/order management and deployed on AWS.
- File Storage Service - Play Framework, AWS S3
- Implemented secure image/file upload with S3 integration.
- Built frontend preview and storage cleanup for inactive users.
