PROFESSIONAL SUMMARY

Analytical and results-driven Senior Business Analyst with 4 years of experience in international projects. Skilled in gathering business requirements, optimizing processes, and working cross-functionally with technical and business teams. Proficient in Jira, Visio, SQL, and Agile methodologies. Authorized to work in Canada and currently based in Vancouver.

PROFESSIONAL EXPERIENCE

Senior Business Analyst

Innovance Consulting - Istanbul, Turkey (Remote)

Jun 2023 - Feb 2025

- Gathered and analyzed business requirements for mobile app and internet banking systems.
- Developed comprehensive documentation for backend and frontend teams, improving developer onboarding and reducing revision cycles by 20%.
- Used JIRA to manage and track all development tasks.
- Conducted detailed API testing using Postman and Swagger, identifying and documenting 15+ critical bugs before production.
- Performed data analysis and optimized queries using SQL and DBeaver.
- Served as Scrum Master to facilitate Agile ceremonies and team coordination.
- Led full-cycle QA testing across 5+ sprints, ensuring 98% bug-free releases and smooth UAT handovers.
- Supported UAT and production environment transitions, coordinating closely with developers and QA for seamless go-lives.

Business Analyst / Senior Business Analyst

ETIYA - Istanbul, Turkey

Mar 2021 - Jun 2023

- Initially hired as a Business Analyst and promoted to Senior Business Analyst based on performance.
- Led business requirements analysis for CRM telecom projects in Oman.
- Conducted stakeholder meetings to gather, clarify, and finalize project requirements.
- Collaborated with client stakeholders during on-site meetings to refine business needs, contributing to 100% requirement alignment and faster sign-offs.
- Created workflows and process maps in MS Visio.
- Designed wireframes using Balsamiq that improved UI clarity and reduced user testing feedback cycles by 30%.
- Authored detailed Software Requirements Specifications (SRS) documents.
- Facilitated UAT sessions and delivered hands-on training to end users, boosting user adoption by 25% post-launch.

Assistant Process Development Specialist

Mars Logistics - Istanbul, Turkey

Nov 2020 - Feb 2021

- Developed process improvement strategies to enhance operational efficiency.
- Collaborated with cross-functional teams to identify and resolve workflow bottlenecks.
