EDUCATION

Purdue University, Daniels School of Business

West Lafayette, IN

Master of Science in Business Analytics & Information Management

Aug 2026

- Merit-based Scholarship

National Central University

Taoyuan, Taiwan

Bachelor of Business in Information Management, Minor in Finance

Jun 2024

Language: Fluent in English | Native Mandarin

Skills: Python, R, SQL, C++, Java, Power BI, Microsoft

Honors: Winner of Taiwan Association for Institutional Research (TAIR) and International Symposium 2024

PROFESSIONAL EXPERIENCE

Kraft Auctions

Valparaiso, IN

Data Analytics Intern

Jan 2026 – Apr 2026

- Automated the ingestion of 80,000+ user data files, reducing manual collection effort and improving data availability, by building an automated downloader and developing a Python crawler.
- Improved data cleaning efficiency and consistency, enabling faster downstream analysis, by designing and implementing an automated data-processing pipeline.
- Delivered actionable customer segmentation insights, supporting user portrait mapping and auction performance analysis, by building an interactive Shiny dashboard to visualize user behavior and auction data.

Chunghwa Telecom Company Limited

Taipei, Taiwan

Data Analytics, Data Development Department

Jun 2024 – Jun 2025

- Developed a automated data pipeline to process more than 1,000,000 records, reducing manual preprocessing time by 70% and accelerating downstream analytics.
- Analyzed historical customer behavior data to develop customer segments and enable targeted promotional campaigns, resulting in a 10% increase in sales.
- Developed dashboards and data visualizations to track customer behavior and campaign performance, translating analytical findings into actionable insights for marketing decision-making.

National Central University

Taoyuan, Taiwan

Research Assistant, Office of Institutional Research

Oct 2022 – Jun 2024

- Optimized a dataset of 30,000 institutional reads, improving data reliability and driving a 20% increase in accuracy for strategic decision making.
- Applied descriptive statistics and statistical tests to analyze student learning outcomes and interdisciplinary education.
- Developed presentations with actionable insights that guided university administrators on rankings and academic policies.

CTBC Bank

Taipei, Taiwan

Data Analytics Intern, Data Application, Information Technology Department

Jun 2023 – Sep 2023

- Built an automated DataHub pipeline that streamlined ETL processes and reduced data search time by 30%, and created system documentation that improved maintenance speed by 50%.
- Created user manual for pipeline deployment, supporting smooth operations across cross-functional teams.

Bank Sinopac Company Limited

Taipei, Taiwan

Software Engineer Intern, Data Application, Information Technology Department

Jun 2022 – Sep 2022

- Developed a web crawler to collect thousands of online records into a corporate database.
- Applied advanced data reduction techniques to highlight key features, improving model interpretability.
- Built an ML model to predict branch growth potential with 85% accuracy, supporting regional planning.

Bank Sinopac Company Limited

Taipei, Taiwan

Project Manager Intern, Platform Development Department

Jun 2021 – Sep 2021

- Tested banking software before launch and wrote detailed QA reports to reduce error rate by 15%.
- Benchmarked authentication methods across 5 banks, identifying security strengths and weaknesses.
- Compiled findings into a 20-page industry report adopted by management for product development.
