Data Visualization & BI: Power BI (DAX, Data Modeling), Tableau, Advanced Excel

Databases: PostgreSQL, BigQuery, MySQL, Progress DB

Tools & Other: GitHub, VS Code, Notion | EDA, KPI Reporting, Trend Analysis, Data Validation, Data Transformation

PROFESSIONAL EXPERIENCE

Sales Representative Specialist | Lowe's Home Improvement | USA

Mar 2026 – Present

- Support customer-facing sales operations by advising shoppers on product selection, driving department sales performance, and delivering a high standard of customer service on the sales floor.
- Partner with merchandising and inventory teams to maintain accurate stock levels and product presentation, contributing to consistent department sales targets.

Junior Data Analyst Trainee | Intelligenie LLC | USA

Sep 2024 – Jul 2025

- Designed and maintained weekly stakeholder reporting dashboards using Excel and SQL, delivering consistent BI updates to management across 10+ reporting cycles.
- Built ETL workflows to extract, clean, and load data from SQL/Progress databases and BigQuery, reducing manual data preparation time by ~30%.

Data Analyst Intern | Euniverse Technologies LLC | USA

Jun 2024 – Aug 2024

- Reduced data retrieval time by ~40% by optimizing SQL queries and restructuring data pipelines in Progress Database and BigQuery, enabling faster analytics turnaround for 3 business units.
- Delivered 5+ Power BI dashboards and conducted SQL-based analysis supporting data-driven decisions across sales and operations teams.

PROJECTS

Salary Dashboard — Excel / [GitHub](#)

Built an interactive Excel dashboard to analyze and compare data analyst salaries using pivots and filters.

World Life Expectancy Analysis — SQL / [GitHub](#)

Performed data cleaning and exploratory data analysis on global life expectancy dataset to identify trends.

HR Analytics Dashboard — Power BI / [GitHub](#)

Developed a Power BI dashboard to analyze employee attrition, salary, roles, and workforce insights using DAX.

Live Crypto Price Web Scraper — Python / [GitHub](#)

Created a Python scraper to track live Bitcoin prices and store timestamped data for analysis.

CERTIFICATIONS

Google Data Analytics Professional Certificate (8-course specialization) — Google / Coursera
