Professional Summary

I am a first-generation university graduate in computer science. I graduated from the **University of Michigan - Ann Arbor** in December of 2024. I have experience with several **object-oriented programming** languages with my strongest being **C++** and **Python**. I also have experience with both front and back end development with websites, servers, databases, and desktop apps.

Education

University of Michigan

Bachelor of Science in Engineering for **Computer Science**

GPA: 3.0/4.0

Relevant coursework: Data Structs and Algorithms, Intro to Computer Security, Foundations of Computer Science, Intro to Computer Organization, Web Systems, Intro Artificial Intelligence, Database Management Systems, Applied GPU Programming

Ann Arbor, Michigan

[Start:](#) 09/2020

[End:](#) 12/2024

Experience

Wok Cook

P.F. Chang's

- Cook high quality food in a **fast paced environment**
- Maintain a clean workstation
- Thoroughly clean restaurant for closing

Romulus, Michigan

[Start:](#) 08/2022

[End:](#) Present

Shift Manager

McDonald's

- Tracked Inventory
- Managed sales
- **Oversaw and led staff**
- Ensured food safety standards

Lincoln Park, Michigan

[Start:](#) 04/2019

[End:](#) 05/2022

Projects

Snake

- Description: A desktop application with a GUI written in C++ with QT. The game is a recreation of the classic game Snake. It also has working audio with volume control.
- Technologies Used: C++, QT

[Start:](#) 05/2025

[End:](#) Present

WalkMap

- Description: A website with an interactive map allowing users to read and review how walkable an area is. It utilizes several custom components and a custom REST API to ensure security and functionality.
- Technologies Used: React, Flask, SQLite

[Start:](#) 09/2024

[End:](#) 12/2024

Wikipedia Search Engine

- Description: A search engine that allows a user to search for any wikipedia page using TF-IDF to determine the importance of pages. The index for TF-IDF was attained by running the raw html through several custom hadoop cycles.
- Technologies Used: Flask, Hadoop

[Start:](#) 11/2023

[End:](#) 12/2023

Textia

- Description: A text-based adventure game written entirely in C++ that runs through the console. The game uses several custom classes to track player and location data, as well as audio through XAudio2.
- Technologies Used: C++, XAudio2

Start: 11/2022

End: 01/2023

Skills and Interests

Technical Skills: C++, Python, Flask, React, Git, JavaScript, CSS, SQL, HTML, QT, Microsoft Office Softwares, Autodesk Softwares, Windows Development, Linux Development

Programming Languages: C++, Python, React, Javascript, SQL

Web Development: Flask, React, CSS, HTML

Other Skills: Git, Microsoft Office Softwares, Autodesk Softwares, Windows Development, Linux Development

Interests/Hobbies: I am passionate about learning, so I code a lot in my freetime. When I'm trying to relax, however I'm either at the gym, watching anime, or playing video games.
