

YASHWANTH GUNDELA | Software Engineer

Location: NY | Email: gundelayashwanth8@gmail.com | Phone: (518)-313-9819 | [LinkedIn](#)

Summary

With over 3 years of dedicated experience as a **Python Developer** and **Software Engineer**, expertise in Python, **REST API**, **MongoDB**, Django, Flask, C, C++, and **SQL** has been demonstrated. Proficiency in web application development is evident, particularly in **Django**, **Flask/Python**, **Node.js**, **React.js**, and **jQuery**. Additionally, adept utilization of Python libraries such as **NumPy**, **SciPy**, **Matplotlib**, **Pandas**, **networkx**, **urllib2**, **PyCharts**, and **HighCharts** has been instrumental in driving enhancements throughout the **Software Development Life Cycle (SDLC)**. Played a pivot role formulating and executing **DevOps** and cloud strategies, particularly with Amazon Web Services (**AWS**) in a **Linux** server environment. Hands-on experience with Relational and NoSQL databases, including **MongoDB**, **MySQL**, Confidential Informix, and **DB2**, applied to craft efficient SQL queries, optimizing database performance.

Experience

Anthem, NY | Machine Learning Engineer

Aug 2023 – Present

- Utilized Python for backend development, data analysis, and machine learning tasks.
- Built a user-friendly web interface using HTML, CSS, and JavaScript, ensuring compatibility across different browsers. Employed frameworks like Bootstrap and ReactJS for frontend development.
- Developed RESTful APIs using Django and Flask in Python to facilitate communication between the frontend and backend. Utilized FastAPI for building high-performance APIs.
- Applied machine learning algorithms and libraries such as NumPy, pandas, Scikit-learn, TensorFlow, and PyTorch for data analysis, predictive modeling, and clustering. Developed and fine-tuned machine learning models for tasks such as disease prediction, patient risk stratification, and treatment recommendation

Citius Infotech, India | Software Engineer

Dec 2019 – Jul 2021

- Spearheaded the development of a responsive telemedicine platform using Python, JavaScript, HTML5, and CSS3, ensuring a seamless user experience with adaptive web design for various devices and screen sizes.
- Deployed and maintained the platform on Amazon Web Services (AWS) leveraging services such as EC2 for compute, S3 for scalable storage, RDS for managed relational databases
- Integrated machine learning algorithms using TensorFlow, Keras, and scikit-learn for predictive analytics and decision support functionalities.
- Implemented a microservices architecture with Docker containers orchestrated by Kubernetes and utilized technologies like Apache Kafka for robust message queuing and Apache Spark for real-time data processing and analytics.

7FinCorp Group, India | Python Developer

Jan 2019 – Nov 2019

- Developed a Python-based web application using Django framework, incorporating NumPy and pandas for HR data manipulation and analysis, focusing on metrics like employee turnover rates, recruitment efficiency, and performance evaluations.
- Utilized Flask and FastAPI to implement RESTful APIs, facilitating seamless integration with HR management systems for real-time data retrieval and updates.
- Integrated geospatial data analysis capabilities using geopandas and Django, enabling visualization of employee distribution across geographical locations for strategic workforce planning.
- Employed TensorFlow and Keras to design and train machine learning models, predicting employee attrition and identifying factors influencing employee satisfaction and retention.

Skills

Languages:	Python, C, C++, JavaScript, HTML, CSS, Java, C#, R, PHP, Perl, Solidity, Shell, GraphQL,
Frameworks & Libraries:	NumPy, pandas, Scikit-learn, OpenAI, langchain, gradio, TensorFlow, Keras, Pytorch, geopandas, Bootstrap, Laravel, Django, Flask, FastAPI, ReactJS, Microservices
Databases:	MySQL, PostgreSQL, SQLite, Oracle DB, MongoDB
Big Data Technologies:	Hadoop, HDFS, Hive, Apache Spark, Scikit Learn, Pandas, Apache Kafka
Cloud Computing Skills:	Amazon Web Services (AWS), OpenStack, GCP
Tools & Software:	Jupyter, Anaconda Navigator, WordPress, Google Colab, MS Office Suite, Google Big Query, Git, GitHub

Education

Master of Science in Computer Science and Engineering

Dec 2023

University at Buffalo, NY

Bachelor of Technology in Computer Science and Engineering

May 2021

Jawaharlal Nehru Technological University, India
