
AKSHAY LOLGE

Long Beach, California • akilolz2001@gmail.com • (562) 713-5180 • [LinkedIn](#)

SUMMARY

A highly motivated Computer Engineering graduate driven to apply technical skills, global perspective, and a passion for innovation within a leading organization. Committed to contributing to advanced technological solutions while continually enhancing expertise.

EDUCATION

California State University Long Beach - 2024

B.S. in Computer Engineering

GPA-3.25

ACADEMIC PROJECTS

Raytheon Drone Competition [Design & Build of an operational UGV]

- Led the integration of Raspberry Pi 5 and ESP32 for a UGV project, implementing precision navigation with GPS/RTK and Google Maps API, and managing hardware for autonomous functionality.
- Collaborated with a team of five to achieve operational status and contributed to report writing.
- Engineered key features like motor control, ultrasonic obstacle detection, and a payload drop zone, and set up a Flask and Unicorn server for optimized data coordination and system efficiency.

Advanced Color Detection System via I2C Communication

- Developed an advanced color detection system by integrating a TCS34725 color sensor with a TIVA TM4C Launchpad, using I2C and UART protocols for efficient data communication.
- Applied expertise in embedded system design and sensor integration to optimize real-time data analysis, significantly enhancing system performance and accuracy..
- Implemented advanced hardware-software interactions to achieve precise color recognition, enhancing system accuracy and performance.

Weather Visualization Embedded System

- Developed an advanced weather visualization embedded system using a CC3100 booster and ST7735R LCD, interfaced through SPI and utilizing the OpenWeatherMap API for real-time data.
- Demonstrated proficiency in embedded software, network communication protocols (SPI, Wi-Fi), and dynamic graphical display techniques, optimizing system functionality and user interface.
- Delivered a compelling user experience with dynamic weather animations, significantly enhancing user engagement and interaction.

WORK EXPERIENCE

CampusLife Pvt. Ltd: Technical Advisor

(May 2021 – Jan 2022)

- Led the launch of an advanced online education app, increasing user engagement by 40% and enhancing functionality.
- Coordinated with the production team to boost the application's value and user experience.
- Contribute to weekly scrums post release of weekly UI & UXD patches.

Aktual Innovations Pvt. Ltd: Web Design & Data Analytics Intern

(Mar 2021 – Aug 2021)

- Developed a high-performing e-commerce site with WordPress and WooCommerce, optimizing online transactions.
- Designed the company's weekly & monthly product subscription modules.
- Designed targeted Google and Facebook ad campaigns to gather lookalike customer data.

Soma Nutrition Labs Pvt. Ltd: Field Intern

(Jul 2020 – Dec 2020)

- Established a camp treating 500+ children with severe acute malnourishment (SAM) in rural Maharashtra, improving local healthcare.
- Coordinated daily activities with 4 doctors and 15 nurses, sending progress and challenge reports to the head office.
- Streamlined the induction of 300+ patients into the treatment camp with local authorities.

SKILLS

Technical Proficiency: C, C++, Embedded C, Embedded C++, Python, Java, C++, Verilog, I2C, SPI, UART, RTOS, GIT, VHDL, SoC, FPGA, ARM, Embedded Linux, Presentation, Report Writing, Team Management, Rust

Languages: Fluent in English, Hindi & Marathi.
