EDUCATION

Master of Science in Information Technology
Kennesaw State University

August 2023 – May 2025
GPA – 3.50

TECHNICAL SKILLS

- **Programming Languages:** Python (Pandas, NumPy), SQL, and R.
- **BI/Reporting Tools:** Tableau, Power BI, MS Excel (Pivot Tables, VLOOKUP/XLOOKUP, Power Query, VBA).
- **Databases & Data Warehousing:** : MS SQL Server, MySQL, PostgreSQL, MongoDB (NoSQL), ETL, Data Modelling.
- **Data Engineering:** Workflow Automation, Data Pipelines
- **Project Management and Methodologies:** SDLC, Jira, Confluence, Agile, Scrum, Process Mapping.
- **Data Analytics:** Predictive Modelling, Statistical Analysis, A/B Testing, Data Wrangling, Business Intelligence
- **Software Tools:** Google Collab, Visual Studio, GitHub, Jupyter Notebook, Linux, Unix,
- **Cloud:** Microsoft Azure cloud, Azure Data Factory, Azure Databricks.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services
Data Analyst

February 2022 – July 2023

- Gathered business requirements and transformed them into a technical insight as per business needs.
- Used Power Query in Power BI to pivot and unpivot data models for cleansing and transformation.
- Developed Power BI reports and dashboards by connecting different data sources like Azure Databricks, Oracle General Ledger, SQL Server, Excel, and Text format files.
- Designed a Power BI data model with multiple fact tables and dimensions depending on the business requirements.
- Experience in using DAX (Data Analysis Expressions) functions for various fact calculations for efficient data visualization in Power BI.
- Developed various dashboards by developing different chart types, including Pie Charts, Bar Charts, Tree Maps, Circle Views, Line Charts, Area Charts, and Scatter Plots in Power BI.
- Developed Python scripts to connect SQL Server & SSAS cubes for processing large datasets, data analysis, and extract data for visualization
- • Involved in developing Dashboards, Parameterized reports, Linked reports, Sub-reports by Region, Country, Year, Quarter, Month, WoW, and YoY.
- Worked in publishing Power BI Desktop reports created in Report View to the Power BI service.

PROJECTS

Interactive Financial Dashboard for U.S. Banking Sector Analysis

August 2024 – December 2024

- Developed and deployed interactive Tableau dashboards to analyze financial trends, risks, and branch distributions in the U.S. banking sector, utilizing Federal Reserve data to provide actionable insights.
- Optimized data preparation workflows in Microsoft Excel, improving efficiency by 30%, and created Figma wireframes to design user-friendly interfaces.
- Delivered clear visual analytics to stakeholders, including regulators and bank executives, enhancing decision-making processes and reducing data interpretation time.
- Integrated advanced features like filters, tooltips, and drill-down options in Tableau, enhancing user engagement and data exploration capabilities by 40%.

Data-Driven Diabetes Management Using Business Intelligence

August 2023 – December 2023

- Developed predictive models using Machine Learning (Regression and Classification) to analyse patient health trends.
- Developed an interactive Power BI dashboard to analyse blood glucose trends, medication adherence, and lifestyle impacts.
- Improved personalized care recommendations using ML insights, reducing hospital readmission rates by 15%.

CERTIFICATIONS

- Certified in Microsoft Azure Fundamentals - AZ-900.
- Gained Linux expertise – Great Learning Academy.
- Microsoft Power BI Data Analyst Associate – LinkedIn.
- Acquired MySQL knowledge – Tutorialpoint.
- Google Data Analytics - Coursera
