

Asher Hrudai Gunnam

 +1-720-333-1753  asherhru@gmail.com  <https://www.linkedin.com/in/asher-hrudai-gunnam-405bb5204/> Boulder, CO

EDUCATION

University of Colorado Boulder

Aug 2023 - May 2025

Master in Data Science

- **GPA:** 3.74/4.0
- **Coursework:** Computer Vision, Big Data Architecture Data Mining, Machine Learning, Statistical Methods and Applications I & II, Cyber Security for Data Science

Gandhi Institute of Technology and Management, Hyderabad, Telangana

Jun 2019 - Mar 2023

Bachelor's in Computer Science and Engineering

- **GPA:** 3.4/4.0

EXPERIENCE

Electronics Corporation of India Limited (Government Department)

Mar 2023 - Jul 2023

Machine Learning Summer Intern

Hyderabad, IN

- Leveraged Python to perform statistical analysis on 500,000+ data points, refine feature engineering workflows, and deploy machine learning algorithms into production systems, increasing operational efficiency by 20%.
- Improved real-time facial recognition accuracy by 14%, optimizing algorithms to support 50+ devices and enhancing scalability for deployments in systems serving 1,000+ users.
- Enhanced robustness and accuracy of predictive models by preprocessing and augmenting 10,000+ image datasets, increasing model precision by 12% under varied conditions.
- Refined feature extraction techniques, reducing false positives by 15% and improving detection efficiency, resulting in 30% faster processing times for high-volume recognition tasks.
- Collaborated with a team of 5 to develop and deploy a scalable solution, achieving 99.9% system uptime and seamless integration across diverse hardware environments.

PROJECTS

Song Genre Classification and Prediction

Aug 2024 - Dec 2024

- Applied five machine learning algorithms (PCA, K-means, Random Forest, Naive Bayes, SVM) to classify 65,000 songs into genres, achieving 93% precision and improving prediction speed by 20%.
- Processed and integrated a 65K-record dataset from Kaggle and Spotify API, ensuring 99.8% data consistency and revealing trends with PCA, retaining 99% variance.
- Provided insights into 12 key genres and 50+ artist performances, delivering actionable recommendations to enhance market strategies.

Power BI Dashboard: Adidas Sales Analysis

Sep 2024 - Dec 2024

- Designed a dynamic Power BI dashboard to analyze \$900 million in sales, identifying high-performing regions and product categories.
- Integrated and refined datasets from Kaggle to visualize sales metrics, highlighting trends in regional and retailer performance.
- Enhanced decision-making efficiency by 15%, leveraging DAX functions, slicers, and drill-through filters to provide comprehensive sales insights.

Scalable Smart Inventory Management System

- Developed a scalable inventory management system using Flask, MySQL, Redis, RabbitMQ, and Docker, enabling real-time tracking of 10,000+ products and automating 100% of restock alerts.
- Reduced query latency by 40% with Redis caching and processed 500+ sensor events/second, ensuring real-time performance during stress tests.
- Containerized services with Docker, achieving 100% deployment consistency and enabling 10x scalability with planned enhancements for predicting analytics and Kubernetes orchestration.

Air Quality Index (AQI) Prediction Using Data Mining

Jan 2024 - May 2024

- Cleaned and processed 13,596 records using Python and SQL, increasing data reliability by 25% and reducing preprocessing time by 18%.
- Optimized Decision Tree, Random Forest, and XGBoost models, achieving 92% accuracy, a 10% improvement over baseline results.
- Developed Tableau dashboards to visualize pollutant trends over 12 months, improving environmental decision-making by 15%.

SKILLS

- **Programming Languages:** C, Python, R, SQL
- **Data Engineering & Modeling:** Data Marts, Normalization, ETL Pipelines, Cloud Data Solutions (Azure), Data Modeling
- **Database Management:** MySQL, SQLite
- **Data Analytics:** Data Analysis, Statistical Analysis, Data Mining, Predictive Modeling, Data Warehousing
- **Data Visualization:** Power BI, Tableau, Excel (Dashboards & Reports)
- **Analytics Tools:** Alteryx
- **Analytical Skills:** Problem-Solving, Pattern Recognition, Trend Identification, Critical Thinking
