- **Visualization:** Tableau, Power BI, MS Office (Excel, PowerPoint, Word, Outlook)
- **Analysis and Design Skills:** Cost/benefit analysis, Ad-hoc Analysis, GAP analysis, SWOT analysis, Budget Analysis, Root Cause Analysis, Mockups, Wireframes, BPMN, Process flow, Use Case, Activity, Sequence diagrams
- **Database:** MySQL, SQL Server
- **Soft Skills:** Time Management, Product Management, Stakeholder Management, Detail-oriented, Leadership, Presentation, Interpersonal skills, Communication, Problem Solving, Team player

Work Experience

CVS Health, TX

Jan 2024 – Present

Business Analyst

- Utilized SQL queries and data analysis tools (Tableau, Excel) to extract and analyze healthcare data from various sources (EMR, EHR, claims data).
- Conducted interviews, workshops, and JAD sessions to gather business requirements from diverse healthcare stakeholders (clinicians, administrators, patients) for various projects.
- Ensured compliance with HIPAA regulations by implementing data security protocols and conducting regular privacy risk assessments.
- Acted as a liaison between business and technical teams, translating complex healthcare requirements into technical specifications.
- Developed detailed business requirements documents and use cases to guide the development and implementation of a patient portal.

Cognitive Healthcare Solutions, India

Jan 2019 – July 2022

Business Analyst

- Developed dashboards using Power BI to provide real-time insights into key performance indicators (KPIs) such as patient satisfaction, length of stay, and cost per patient, resulting in a 20% increase in data-driven decision-making.
- Analyzed business processes and workflows to identify inefficiencies and opportunities for improvement in healthcare departments (billing, claims processing, patient scheduling).
- Facilitated workshops to gather input from clinicians, administrators, and patients to identify opportunities for improving patient experience.
- Led process improvement initiatives to streamline healthcare operations and improve patient outcomes, resulting in a 25% increase in operational efficiency.
- Created wireframes and prototypes using Balsamiq to visualize and communicate complex healthcare solutions to stakeholders, leading to a 50% reduction in design iterations and improvement in stakeholder alignment.
- Performed a cost-benefit analysis to evaluate the feasibility of implementing a population health management program.
- Identified cost-saving opportunities within healthcare operations through data analysis and process improvement.

Certifications

- CargoWise Certified Specialist | Salesforce Admin Certified
