

Cade Mock

PROFESSIONAL SUMMARY

Recent Computer Science graduate (B.S., Cum Laude) with experience across **software development, data analysis, and system design**, with particular focus on **backend and full-stack applications**. **Strong problem-solving, debugging, and collaboration skills**, proven through academic projects and leadership roles. Seeking a **software engineering position** to contribute technical expertise and **grow into greater responsibilities**.

EDUCATION

Texas A&M University - Commerce

B.S. in Computer Science, Cum Laude | **GPA: 3.52** | **Graduated: Aug 2025**

Dean's List (Fall 2024), President's List (Spring 2025)

SKILLS

Languages: Python, Java, C++, JavaScript/TypeScript, C#, SQL

Frameworks: React, Flask, Spring Boot, Node.js, .NET Core

Databases: PostgreSQL, MySQL, SQLite, MongoDB (familiar), DynamoDB (familiar)

Tools & Platforms: Docker, Git/GitHub, AWS (foundational), Kubernetes (foundational), Pandas, Scikit-learn

PROJECTS

PATENT SEARCH WEB APP

Tech Used: Python, Flask, PostgreSQL, JavaScript, HTML/CSS

- **Built a full-stack app** for searching and filtering hundreds of thousands of U.S. patents, **scalable to millions** through extensive scraping/ETL pipeline, by integrating PostgreSQL full-text search and keyword indexing.
- Delivered a **100% improvement in query speed** compared to USPTO's legacy system, eliminating manual forms and delays.
- Implemented TF-IDF and cosine similarity scoring to improve patent relevance ranking.
- Led a team of **7 developers**, managed sprints, reviewed code, mentored peers, and **authored 85% of frontend and backend code**.

TAXI TOTAL COST AI MODEL

Tech Used: Python, Scikit-learn, Pandas, Jupyter, Matplotlib

- **Designed** a regression-based ML model to predict NYC taxi fares using trip features.
- Enhanced baseline model accuracy by **15+ percentage points** via advanced feature engineering and ensemble methods.
- **Completed full ML pipeline:** cleaning, feature engineering, normalization, training, and evaluation.
- Visualized results for clear stakeholder communication with Matplotlib/Seaborn.

WORK EXPERIENCE

Domino's - Assistant Manager (Full Time) | Feb 2022 - Oct 2024

- **Supervised and trained** teams of up to **8 employees per shift**, ensuring operational efficiency during **90 to 130 peak orders** per shift.
- **Resolved customer and delivery issues** quickly, strengthening communication and conflict resolution.
- Balanced multiple priorities, sharpening **time management and leadership skills**.
