

MANOJ KUMAR VAKAMALLA

DATA ANALYST

Arkansas, USA | vakamallamanoj09@gmail.com | +15016180147 |

SUMMARY

- **Data Analyst** with **3+ years** of experience in data analysis, data wrangling, and data visualization using **Python (Pandas, NumPy, Matplotlib, Seaborn)** and **SAS**, enabling actionable insights and business decision support.
- Strong SQL expertise across platforms like **MySQL, PostgreSQL, SQL Server, Snowflake, and Oracle** to perform complex queries, data modeling, and ETL operations.
- Experienced in using **BI tools** such as **Power BI, Tableau, and Looker** for designing dynamic dashboards, visual storytelling, and stakeholder reporting.
- Hands-on experience with ETL tools (**Alteryx, Talend**), data warehousing (**Snowflake, Redshift, BigQuery**), and working knowledge of cloud platforms (**AWS, Azure**) for scalable data processing.
- Good understanding of **HIPAA, PHI** compliance in healthcare analytics and financial risk, fraud detection, and regulatory reporting (**SOX, Basel**) in finance analytics, backed by strong domain knowledge and business acumen

TECHNICAL SKILLS

Programming Language:	Python, SQL, Scala, R
Packages:	NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, TensorFlow, Seaborn, ggplot2
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)
Cloud Technologies:	AWS (EC2, S3, Redshift, Athena, Glue, DynamoDB), Azure, Snowflake
Database:	MySQL, PostgreSQL, MySQL, MongoDB, SQL Server
Data & Market Analytics:	Machine Learning Algorithms, ETL Tools, Statistics, ServiceNow, SSIS, SSRS, MapReduce, Snowflake, Alteryx, Probability distributions, ANOVA, Hypothesis Testing, Regression Analysis, Linear Algebra, Advance Analytics, Data Mining, Data Visualization, Data warehousing, Data transformation, Data Storytelling, Business Analysis, Association rules, Clustering, Classification, Regression, A/B Testing, Forecasting & Modelling, Data Cleaning, Data Wrangling.
Other Skills:	SDLC, Agile, Waterfall, Effective Communication, Problem Solving, Time Management, Stakeholder Management, Presentation Skills, Risk Management, Flexibility, Networking, Git, GitHub.

WORK EXPERIENCE

Elevance Health, Little Rock | Data Analyst **Jul 2024 - Present**

- Analyzed large-scale Electronic Health Record (EHR) data using SQL, Python (Pandas, NumPy), and Power BI to uncover trends in patient outcomes, enabling clinicians to identify high-risk patients 20% faster.
- Designed and implemented a Healthcare Analytics Dashboard project that consolidated metrics across patient admissions, readmissions, and length of stay using Tableau, improving data-driven decisions across departments.
- Collaborated with cross-functional teams to perform claims and reimbursement analysis using SAS and Excel, helping reduce billing errors by 18% and supporting audit readiness.
- Developed and maintained ETL pipelines using SSIS and AWS Redshift, ensuring accurate and timely ingestion of clinical and administrative datasets from multiple sources.
- Ensured compliance with HIPAA and data governance standards by performing routine data validation, quality checks, and metadata documentation using Alation and Informatica.

Infosys | Data Analyst **Jan 2021 – Jul 2023**

- Developed and maintained a Collateralized Loan Obligation (CLO) portfolio performance dashboard using Power BI, Python (Pandas, NumPy), and SQL, streamlining asset manager trend analysis and investor risk profiling with a 30% improvement in reporting speed.
- Extracted, cleaned, and analyzed large-scale financial datasets related to syndicated loans, CLO tranches, and market comparables using SQL and Excel VBA; supported the creation of underwriting memos, term sheets, and rating agency materials.
- Conducted cash flow modeling and scenario analysis for structured credit facilities using Python and Excel, supporting deal structuring and capital market execution activities for asset management clients.
- Created and updated investor-facing materials including pitch books, tear sheets, and marketing decks in PowerPoint and Tableau by integrating asset-level insights and investor feedback to enhance buy-side interest.
- Collaborated with teams from Credit Risk, Legal, and Compliance to review financial covenants, regulatory disclosures, and structured finance documentation, ensuring alignment with internal controls and FINRA guidelines.
- Designed and implemented a centralized data pipeline using SQL Server and ETL automation tools (Alteryx), standardizing structured finance reporting processes and improving data accuracy by 25%.

EDUCATION

University of Arkansas, Little Rock | Master's in Computer Science

Qis college of engineering and technology, Ongole, AP, India | Bachelor's in Computer Science and Engineering
