

EDUCATION

Long Island University, New York, USA	(December 2025)
Master of Data Analytics and Strategic Business Intelligence (GPA-3.84)	
Gujarat University, Ahmedabad, Gujarat	(May 2017)
Masters of Commerce	
B. K. School of Management	(May 2016)
Diploma in Banking and Insurance	

EXPERIENCE

Product Management Experiential Program	
Lean Education Agile Foundry Lab	(Apr 2025 – Present)
- Improved stakeholder risk visibility by maintaining KPI and risk dashboards; applied workflow analysis and root cause investigation; analyzed operational and user journey data to detect vulnerabilities. - Conducted structured documentation audits; reviewed templates and workflows; improved documentation accuracy and reduced process gaps by 15%. - Synthesized fraud-risk findings into executive-ready reports; analyzed performance indicators; strengthened data-driven decision-making and mitigation strategies.	
AI Development Intern / Group Leader	
Organizacion Corona (Remote, Canada)	(Sep 2025 – Dec 2025)
- Improved fraud investigation efficiency by automating document analysis using YOLOv8 and RAG architecture; analyzed 360+ structured and unstructured documents; achieved 90%+ anomaly detection accuracy. - Reduced investigation turnaround time by 30% by building a centralized datamart and embedding-based search system; analyzed detection logs and operational datasets to identify fraud vectors and vulnerabilities. - Enhanced fraud monitoring reliability through KPI dashboards; applied performance tracking and anomaly pattern analysis; improved response precision and model reliability by 20%. - Led 7 agile sprints collaborating cross-functionally; analyzed sprint metrics and issue logs; improved deployment consistency and reduced technical blockers.	

Fashinnovation Inc. – Florida (Remote)	
Business Development Intern	(Jun 2025 – Sep 2025)
- Conducted market and ICP analysis to identify partnership opportunities and improve outreach targeting. - Analyzed campaign performance and prepared data-driven reports for leadership decisions. - Researched companies and decision-makers, increasing qualified leads for outreach initiatives. - Supported presentations and documentation to improve cross-team collaboration.	

Shree Vidyanagar English Medium School – Ahmedabad, India	
Tutor / Coordinator	(Sep 2018 – Apr 2024)
- Improved student outcomes by 15% through structured Excel-based data analysis of 300+ records; identified performance gaps and root causes; increased evaluation accuracy. - Reduced reporting time by 25% while improving data quality; applied workflow optimization and structured audits; enhanced documentation consistency.	

VOLUNTEER EXPERIENCE

Build.org - IAM High School	
Business Coach	
- Volunteering as a business coach to guide high school students in developing entrepreneurial skills. - Supporting students in creating and presenting business ideas, fostering leadership, and promoting real-world problem-solving.	

PROJECT

Corona Intelligent Agent Python, FastAPI, RAG	
- Improved fraud detection scalability by automating large-scale document intelligence; analyzed 360+ datasets; achieved 90%+ anomaly detection accuracy. - Built monitoring dashboards tracking fraud trends and detection reliability; applied KPI modeling and anomaly analysis; improved investigation response speed.	
Adidas USA Sales Analysis Python, SQL	
- Improved revenue forecasting accuracy through SQL-based EDA and trend analysis; analyzed multi-year sales and transaction datasets; identified anomalies and revenue drivers. - Developed KPI dashboards and mitigation recommendations; applied aggregation queries and forecasting techniques; enhanced insight clarity for business decisions.	

SKILLS

Programming: Python, SQL, R	
Analytics: Fraud Investigation, Fraud Detection, Risk Assessment, Root Cause Analysis, Audit Reporting, KPI Tracking, Data Cleaning, Data mining	
Tools: Excel (Advance), Google Sheets, Power BI, Tableau, Looker Studio, FastAPI	
Methods: Data Modeling, Workflow Review, Anomaly Detection, User Journey Analysis, Process Optimization	
Professional: Stakeholder Communication, Cross-Functional Collaboration, Client Presentation, Problem-Solving
