

SOMANSH MANNE

Fairfax, VA | +1-571-604-9817 | smanne4@gmu.edu | [LinkedIn](#)

SUMMARY

Motivated Junior Data Analyst with 1.5+ years of internship and academic experience in data cleaning, SQL analysis, and dashboard development. Skilled in transforming structured and unstructured datasets into clear insights using SQL, Excel, Python, and BI tools. Strong foundation in exploratory data analysis, data validation, and performance metrics development. Passionate about delivering accurate, well-documented insights that support business intelligence initiatives.

EXPERIENCE

Reprice Solution | Data Analyst Intern | VA, USA

August 2025 – Present

- Collect, clean, and validate structured operational datasets using SQL and Excel.
- Write SQL queries (joins, aggregations) to extract and manipulate data for reporting purposes.
- Build Power BI dashboards to visualize performance metrics and support business decision-making.
- Perform exploratory data analysis to identify trends and patterns across operational datasets.
- Document reporting processes and maintain data integrity standards.
- Collaborate with senior analysts and cross-functional teams to deliver actionable insights.

StateBook International | Data Analyst – Industry Project | VA, USA

Jan 2025 – May 2025

- Processed and structured 50,000+ records using SQL-based workflows.
- Conducted exploratory data analysis and identified performance trends.
- Built Tableau and Power BI dashboards to communicate findings clearly.
- Assisted in developing structured performance metrics and analytical models.
- Maintained documentation of data transformations and validation procedures.

Softbuzz |Data Analysis Intern | India

Nov 2022 – May 2023

- Cleaned and validated structured datasets using Excel and SQL.
- Created Excel-based reports using Pivot Tables and formulas.
- Supported reporting initiatives by ensuring data consistency and accuracy.
- Collaborated with team members to improve data organization processes.

SKILLS

- Data Analysis & Querying**
SQL (joins, aggregations), PostgreSQL, MySQL
Python (Pandas, NumPy – data cleaning & transformation)
- Visualization & Reporting**
Power BI
Tableau
Excel (Pivot Tables, formulas, data validation tools)
- Analytical Foundations**
Exploratory Data Analysis (EDA)
Basic statistical concepts
Performance metric development
Data integrity & validation
- Professional Skills**
Strong analytical thinking
Clear written and verbal communication
Documentation & process tracking
Cross-functional collaboration

PROJECT WORK (MASTERS)

Predictive Analytics for Health, Social Insights, Environmental Trends, and Traffic Safety

Aug 2023 – Dec 2024

- Built structured datasets and reports to support analytical modeling and business insights.
- Applied Python and SQL to prepare, validate, and summarize large datasets.
- Developed dashboards to communicate trends and performance metrics clearly.
- Emphasized data accuracy, documentation, and reproducibility throughout reporting workflows.

EDUCATION

George Mason University | Master's in Data Analytics Engineering | GPA: 3.77/4.0

Aug 2023 – May 2025

Coursework & focus areas: Data Engineering, Analytics Engineering, Large-Scale Data Processing, BI & Visualization, ETL Design

Vidya Jyothi Institute of Technology | Bachelor's degree in Mechanical Engineering | GPA: 3.09/4.0

Jun 2019 – May 2023

CERTIFICATIONS & BADGES

Certifications: Academy Accreditation - Databricks Fundamentals, Snowflake Hands-On Essentials: Data Warehousing Workshop, Neo4j Certified Professional Certificate, Google Certification - Google Developer Student Clubs
