## Business Analyst

North Bergen, NJ | 848-313-9094 |devaaum.s@itjobmail.com

---

### SUMMARY

- Business Analyst with around 4+ years of experience delivering strategic insights and solutions across various industries, including finance, healthcare, and technology.
- Proven ability to lead cross-functional teams, conduct data-driven analyses, and implement business process improvements to drive efficiency and achieve organizational goals.
- Experience creating project documentation, such as Business Requirements Documents (BRDs) and Functional Requirement Documents (FRDs).
- Proven ability to conduct various analyses, including GAP analysis, SWOT analysis, risk assessment, and cost/benefit analysis.
- Skilled in data analysis and visualization using tools like Tableau, Power BI, and Excel to generate informative reports and dashboards that drive strategic decisions.
- Manages successful joint application development (JAD) sessions by effectively collaborating with subject matter experts (SMEs), system architects, software developers, and QA teams through project meetings.
- Skilled in requirements gathering, process optimization, and stakeholder management, with a strong background in ERPs (SAP, Microsoft Dynamics 365), CRMs (Zoho), and ITBMS (ServiceNow).
- Expertise in Capital Markets and Insurance, leveraging technical and analytical skills to bridge the gap between business needs and IT solutions.

### EDUCATION

**Masters in Computer Science** | Monroe College, New Rochelle, New York

**Bachelor in Computer Engineering** | L.J. Institute of Engineering & Technology, India

### WORK EXPERIENCE

#### Cincinnati Financial, USA | Business Analyst

**July 2023 - Current**

- Conducted business user interviews, both in-house and third-party locations, gathering and analyzing requirements using Agile Scrum methodology.
- Developed and implemented customized systems like Microsoft SharePoint and Microsoft VBA scripting for Office products.
- Created and managed Tableau dashboards and reports, giving stakeholders real-time insights into key performance metrics.
- Performed high-level security data risk analysis and GAP Analysis among different applications, incorporating these gaps into models.
- Managed functional and non-functional Business Requirements and new requested requirements using JIRA.
- Facilitated and participated in Joint Application Development (JAD) sessions with stakeholders to gather Business, Functional and Non-Functional Requirements.
- Utilized data analysis to explain business issues and financial implications and recommended improvements to enable business units to improve processes.
- Conducted UAT testing successfully and actively involved in interaction with the business users and getting business sign-off.
- Performed critical business analysis in areas of operations and revenue cycle management, made recommendations to management, and secured project approval.

#### Mphasis, India | Business Analyst

**Jan 2019 - Aug 2021**

- Implemented Waterfall and SDLC methodologies for project execution, integrating Storyboards for requirements gathering.
- Documented project artifacts such as Stakeholder Analysis, Business Requirement Document (BRD), Functional Requirement Document (FRD), Test Cases, and Test Plans.
- Specialized in eliciting Business Requirements, Process Modeling, Risk Analysis, SWOT Analysis, and drafting Functional Specifications.
- Managed stakeholder expectations effectively to align projects, resulting in a 20% reduction in scope creep.
- Created Excel and Power BI reporting solutions that sourced data from SQL data sources using complex queries.
- Provided clear and concise documentation regarding requirements management plans, Functional Requirements, supplemental Requirements, Test Plans, and Test Cases.
- Interrogated Rosetta database to ensure website transactions correctly existed and confirmed the same interfaced into Maidenform ERP.
- Partnered with the project management manager in information gathering, analyzing the information gathered, and documenting the functional or business requirements.
