OBJECTIVE

More than 2 years of industry experience as a Business Analyst in all phases of Software Development Life Cycle. Highly motivated and detail-oriented business analyst with strong analytical and problem-solving skills. Strong communication skills and ability to work collaboratively with cross-functional teams. Seeking to leverage my skills and experience to contribute to the success of a dynamic organization while gaining valuable hands-on experience in the field of business analysis.

SKILLS

Technical skills:

- Requirements Gathering
- Test Planning
- Facilitation
- Integration
- Scrum

EXPERIENCE

BUSINESS ANALYST, CREST INFOSYSTEMS DEC 2020– OCT 2021

- Identified, defined, documented business needs, and provided IT solutions in an Agile environment.
- Designed and developed Use Cases, Activity Diagrams, Process Flow Diagrams, Sequence Diagrams using Business Process Modeling techniques.
- Used database management tools and technologies like MySQL to perform light UAT testing and sanity check.
- Worked closely with Lead Business Analysts and Product Owners to create business requirements and align them with functional and technical requirements.
- Performed Gap Analysis and Impact Analysis by identifying existing technologies, documenting the enhancements to meet the end-state requirements.
- Conducted introductory calls and meetings to identify business challenges.
- Assisted in designing and implementing new methods, procedures, and systems to improve the processing and flow of information within the company.
- Tracked defects/bugs using JIRA and coordinated with Quality Assurance and development teams to resolve defects.

BUSINESS ANALYST INTERN, SIDDHESHWAR ENTERPRISE AUG 2019– NOV 2020

- Controlled the integration requirements between different systems, highlighting any dependencies and impacts.
