

Selvaharshini Easwaran

Cincinnati, Ohio | easwarsi@mail.uc.edu | (513) 399-0329 | [LinkedIn](#)

EDUCATION

Master's in Computer Science

University of Cincinnati, United States

Aug 2023 - May 2025

GPA 3.9 / 4.0

Bachelor's in Computer Science and Engineering

Kumaraguru College of Technology (affiliated to Anna University), India

Aug 2017 - May 2021

GPA 3.8 / 4.0

WORK EXPERIENCE

Software Developer | Humana, USA

Jul 2024 - Dec 2024

- Achieved a 40% increase in prescription data extraction accuracy through Appian's AI-driven IDP (Intelligent Document Processing) capabilities, streamlining workflows for modernizing a legacy pharmacy system.
- Developed scalable validation systems and back-end processes to ensure data integrity during data migration, automating 50+ checks to reduce errors and improve data reliability by 35%.
- Designed new database schemas and optimized SQL server tables to improve back-end architecture, integrating routine data cleansing processes to enhance data quality and scalability for managing over 700K prescriptions annually.

Software Engineer (Back End Developer) | Bosch, India

Jul 2021 - Jul 2023

- Led a cross-functional team in an agile environment to enhance data loading processes by leveraging advanced ETL techniques, integrating multi-terabyte datasets across various data sources for annual planning.
- Improved query execution times by 3-7 seconds through advanced indexing, performance tuning and query optimization, leading to faster data retrieval for critical business operations.
- Automated workflows by developing Oracle PL/SQL packages within iGPM, reducing data processing time by 35% and minimizing manual data entry errors. Implemented REST APIs for backend services, simplifying integration and reducing transaction times for 200+ daily operations.
- Designed and implemented backup and recovery strategies for 15+ critical manufacturing data tables, ensuring data reliability and high availability in the event of system failures.

Full Stack Developer Intern | Bosch, India

Jan 2021 - Jun 2021

- Developed server-side logic for a Project Management Web Application using Spring Boot and MySQL, improving data retrieval times by 20% and ensuring smooth database operations for over 200 active user accounts.
- Led backend development, coding data validation and error handling, debugging and troubleshooting APIs, achieving 30% reduction in system errors; collaborated on integrating OAuth 2.0 for secure user authentication.

Data Analyst Intern | Zinnov Management Consulting Pvt Ltd, Remote

Sep 2020 - Dec 2020

SKILLS

Database Management: SQL, MySQL, PostgreSQL, NoSQL, T-SQL

Data Engineering & Pipelines: ETL, Data Integration, Data Pipelines

Programming languages: Python, Java, C, C#

Web Development: Spring Boot, Node.js, JavaScript, TypeScript

CI/CD: Docker, Kubernetes, Jenkins

Version Control: Git, GitHub

Cloud Platforms: AWS, Microsoft Azure

Others: JUnit, Postman, JIRA, Visual Studio

PROJECTS & CERTIFICATION

Human Activity Recognition / Detection Using Smartphone Sensors

Technologies and language used - Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, PyTorch and GCP
Developed a ML algorithm to detect anomalies in human activity using smartphone sensor data, sending real-time alerts.

Health Monitoring and Analysis (Paper published on IJSE Dec'20)

Technologies and language used - Python, Tableau, Matplotlib, Seaborn, Flutter and AWS

Developed a health monitoring system delivering personalized diet and exercise feedback to 120+ users using a mobile app.

AWS Certified Cloud Practitioner - Certified in June 2023, **Microsoft Azure Fundamentals** - Certified in Jan 2024
