PROFESSIONAL SUMMARY

Detail-oriented Business Analyst with proven expertise in data analysis, process optimization, and advanced reporting solutions. Adept at leveraging SQL, Python, Excel (including VBA macros), and BI tools such as Tableau and Power BI to generate actionable insights and optimize business operations. Skilled in collaborating with cross-functional teams, driving data-driven decision-making, and delivering innovative solutions in dynamic and high-pressure environment

EDUCATION

The University of Dayton 2023-Present

M.Sc., Business Analytics

National University of Computer and Emerging Sciences (NUCES-FAST) 2016-2020

B.Sc., Computer Science

CERTIFICATIONS AND TECHNICAL SKILLS

Certifications: Initiating and Planning Projects, Client Needs and Software Requirements, Front-end Web UI Frameworks and Tools

Tools and Technologies: Tableau, Power BI, SQL, Python, R, QuickSight, VBA

Programming: C, C#, C++, SQL, php, Java, ReactJs, NodeJs

Databases: Google Firebase, SQL Server, NoSQL

Data Visualization: Tableau, Power BI, QuickSight

Analytics and Modeling: Statistical Modeling, Regression Analysis, Automated Forecasting

EXPERIENCE

University of Dayton (Housing and Residence Life)

Graduate Assistant (Housing and Residence Life) Aug 2023 – Present

- Spearheaded process improvements for housing operations by analyzing data trends to optimize student move-ins and streamline logistics for campus-wide events.
- Collaborated with leadership to create strategies that foster an inclusive and engaging residential community in alignment with the Catholic and Marianist tradition.
- Designed and implemented operational protocols to improve the opening and closing of residential facilities, reducing process time by 20%.
- Supported data analysis projects for housing operations to improve resource allocation and promote cost efficiency in residence hall management.

Salsoft Technologies

Aug. 2020 – Nov. 2022

Project Manager

June 2022 – Nov. 2022

- Automated inventory processes by categorizing products based on turnover rates, reducing storage costs by **25%** and improving delivery times by **15%**.

- Developed customized SQL queries for performance tracking and report generation, enabling timely insights into high-demand product categories.
- Crafted a strategy to balance early payment discounts with cash flow by prioritizing high-demand, fast-moving products for accelerated payments, resulting in annual cost savings of **\$200K**.
- Implemented a direct-to-store delivery model for premium products, minimizing overhead costs and boosting profitability through revenue-sharing agreements.
- Analyzed product performance to address items with limited profitability, devising bundled offerings and volume-based sales strategies that boosted bundled sales revenue by **18%**.
- Transitioned teams to a hybrid project management approach, improving productivity and client satisfaction through adaptive workflows.

Associate Project Manager

June 2021 – June 2022

- Developed tailored solutions to improve customer experience, driving a **35%** increase in client retention.
- Implemented forecasting models using Python, improving accuracy by **25%** and supporting revenue growth initiatives.
- Designed dashboards and metrics using Tableau to monitor performance and guide executive decisions.
- Utilized SQL to retrieve and analyze large datasets, generating reports that highlighted opportunities for cost reduction and revenue growth.

Project Coordinator

Aug. 2020 – June 2021

- Optimized cross-department collaboration, significantly improving project delivery timelines by **30%**.
- Introduced new product enhancements for eCommerce platforms, generating **\$500K** in additional annual profits for clients.

Sui Southern Gas Company Ltd. (SSGC)

June 2019 – July 2019

Backend Developer (Intern)

- Developed and optimized SQL queries to enhance database performance and support tracking of project lifecycles.
- Collaborated with the IT team to implement a reporting tool that reduced data retrieval times by **30%**.

Touchpoint Pvt. Ltd.

June 2018 – July 2018

Backend Developer (Intern)

- Worked on the cash flow project for ATMs, by implementing new functions and cleaning the code.
- Developed a new program using MVC framework in dot net that helped in keeping tabs of daily transactions and predict next week's cash-flow ratio.
