

Jyothsna Lade

Jersey City, NJ | +1 510-862-3135 | jl2426@njit.edu | jyothsnalade9@gmail.com | linkedin.com/in/jyothsna-lade/

PROFILE

Software professional with two years of experience developing Salesforce solutions, including Apex, Lightning Web Components, and support ticket resolution. Skilled in Python, Java, React, AWS, and machine learning, with hands-on project experience in data analysis and system optimization. Currently pursuing a Master's in Computer and Information Sciences at NJIT, seeking opportunities to apply expertise in cloud computing, AI, and scalable systems.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C++

Frameworks & Libraries: React, Node.js, PyTorch, TensorFlow, Pandas, NumPy, Matplotlib

Cloud & Integration: AWS (S3, EC2, Lambda, RDS), Salesforce (Apex, SOQL, Visualforce), Mulesoft

Databases: MySQL, PostgreSQL, Oracle

Tools & Methodologies: Git, VS Code, Jira, Agile, Figma, Vercel

PROFESSIONAL EXPERIENCE

Accenture

APPLICATION DEVELOPMENT ANALYST

Hyderabad, IN

(JUL 2021 – JUL 2023)

- Developed Apex classes and Lightning Web Components for Salesforce, automating workflows and reducing processing time by 20% for Field Service Lightning deployments.
- Customized Salesforce solutions with objects, triggers, and validation rules, enhancing data accuracy for 5+ client workflows.
- Collaborated with cross-functional teams to configure 40+ security settings, including Profiles and Permission Sets, enforcing access control and data compliance.
- Migrated 500K+ records using Apex Data Loader and Bulk API, ensuring 100% data integrity across client systems.
- Resolved 100+ L2 support tickets monthly, maintaining zero SLA breaches through troubleshooting and system optimization.

Widhya

ARTIFICIAL INTELLIGENCE RESEARCH INTERN

Hyderabad, IN

(AUG 2020 – OCT 2020)

- Built a stock price prediction model with 85% accuracy using Python and time series analysis, enabling data-driven insights.
- Analyzed financial datasets to identify market trends, delivering actionable reports with 95% issue resolution within SLA.

EDUCATION

New Jersey Institute of Technology

MASTERS IN COMPUTER AND INFORMATION SCIENCES

Newark, NJ

(SEP 2023 – MAY 2025)

GITAM University

B.TECH IN COMPUTER SCIENCE AND ENGINEERING

Vizag, IN

(JUL 2017 – MAY 2021)

COURSEWORK

- Data Management Systems Design
- Data Structures & Algorithms
- Cloud Computing
- Operating Systems Design
- Artificial Intelligence
- Introduction to Big Data
- Java Programming
- Web Systems Development

PROJECTS

Stock Price Prediction

Python | LSTM | ARIMA | Random Forest | SVM

- Developed machine learning models using Python, Pandas, and TensorFlow, achieving 98% accuracy in predicting stock prices for 5 major companies.
- Conducted EDA on 5 years of financial data, creating visualizations with Matplotlib to support investor decisions.

Thread Pool Implementation

threads

- Implemented a Pthreads-based thread pool in C++, handling 1,000+ concurrent tasks with 30% improved CPU utilization.
- Optimized task distribution and synchronization, enabling 5,000 tasks/second under typical load.

Soul Kitchen Website - [link](#)

NextJs | Tailwind CSS | React

- Built a responsive restaurant website using Next.js, React, and Tailwind CSS, deployed on Vercel with 100% test coverage.
- Integrated GDPR-compliant features and Mailchimp, enhancing user engagement through automated email campaigns.

New York City Bus Transport Analysis

Hadoop MapReduce

- Analyzed 1.5M+ rows of bus data using Hadoop MapReduce, identifying top 5 bus lines for transit optimization.
- Scaled Hadoop cluster from 4 to 9 VMs, reducing execution time by 30% with robust data validation.

CERTIFICATIONS

- Salesforce Platform App Builder
- Salesforce Platform Developer I
- Salesforce Certified AI Associate
- Salesforce Certified AI Specialist
