PROFESSIONAL SUMMARY

- 2 years of Extensive Information Technology experience with JAVA technologies in multi-platform contexts for building, designing, analyzing, and testing a variety of web-based, SOA-based, and client/server applications, participating in every stage of the software development life cycle (SDLC).
- Use software development methodologies such as Agile Methodology, Waterfall Methodology to adapt to all stages of the project life cycle from conception through implementation.
- Involved in the agile software development lifecycle which involved designing, coding, testing, and debugging.
- Hands-on experience developing web applications using Spring framework modules like Spring IOC, Spring AOP, Spring MVC, Spring Security, Spring Boot, Spring Batch, and Spring Data.
- Experience in testing with JUnit Framework using Mockito and Easy Mock, Spring Junit Runner, and JMeter
- Expertise in several testing environments like JUnit, Selenium, CURL, Jenkins, SoapUI, and System Testing.
- Experienced in developing Front End web applications using JQuery, HTML5, CSS3, and AngularJS, Bootstrap.
- Expertise in working with various Amazon Web Services (AWS) like Elastic Container Service (ECS) and Elastic Compute Cloud (EC2), Simple Storage Service (S3), Lambda implementation, and AWS CLI
- Good knowledge on all the string, array, and object built-in method (eg: forEach, filter, slice, indexOf, map, reduce...) closure and this keyword in JavaScript.
- Proficient in React.js and JAVA, with a solid grasp of essential data structures and algorithms.
- Written and verbal communication skills with people at different levels including stakeholders, internal teams, and senior management.

EDUCATION

University of Central Missouri

Graduate, Computer Science - CGPA : 4/4

Relevant Coursework: Data Structures and Algorithms, Advanced Software Engineering, Software Testing, Cloud computing on AWS.

Warrensburg, MO

July 2023 – Pursuing

Kalasalingam academy of research and education

Bachelor of Technology in Electronics and Communication - CGPA : 8.32 / 10

Relevant Coursework: C, JAVA, Python

Krishnan koil, TN

Aug. 2018 – May 2022

EXPERIENCE

Zifo RnD Solutions

Software Engineer

Chennai, TN

July 2022 – June 2023

- Worked as backend developer for a US based project and for ZIFO's product.
- Involved in the SDLC phases to analyze the requirements, design, development, deployment and testing of the application based on Java/JEE technologies and Design Patterns.
- Used Java 1.8 Lambda expressions and Stream API to support functional-style operations on streams of elements.
- Worked on Java functional programming concepts like Streams, Functional Interfaces, new date time API, and lambda expressions.
- Involved in PI meetings, documentation, Sprint plans, Grooming, and Business meetings to plan tasks for defining user stories and quarterly releases.
- Core Java with Concurrent API is used extensively for parallel processing and chunk processing.
- Worked with other members of web team to design and develop exciting features using JavaScript.
- Used Splunk and new relic to monitor the application and to store the logging information
- Used Spring Boot which is radically faster in building cloud Micro Services and developing Spring-based applications with very less configuration.
- Developed Microservices and APIs using Spring Cloud, Spring Security, Spring Boot, and Spring Integration.

- Spring JDBC is used to retrieve and update, inserting data in the relational database like Oracle database
- Involved in migrating monolithic applications in Micro Service Architecture and Developed Microservices using AWS Cloud build upon Spring Boot Services.
- Creating a RESTFUL web service using elastic search services and Creating queries in elastic search.
- Used Apache common digester to parse data from XML files and populate data into java beans.
- Collaborating with testers and product owners to get more knowledge on tasks.
- Interacting with client-side people to solve issues and update status.

Environment: Java, J2EE, Spring MVC, Spring boot, JSP, Unix, Linux, Servlet, ajax, Restful APIs, Tomcat Server, PostgreSQL, angular, MongoDB, SQL, NoSQL, CI/CD pipelines, Code Review, JUnit, Mockito, GitLab, Linux, Postman Tool, Restful web services, AWS services like S3, Lambda Implementation, Elastic Search, EC2, AWS CLI, Agile and Scrums methodologies, Jira, DynamoDB

Axis Point software solutions

Chennai, TN

Java developer Intern

Jan 2022 – June 2022

- Developing Spring MVC Controllers for handling of web requests from the Presentation layer by use of URL Handler Mapping.
- Designed GraphQL to build client applications by providing an intuitive and flexible syntax and system for describing their data requirements and interactions.
- Implemented RESTful and SOAP based web services using for JAX-RS and JAX-WS respectively.
- Designed and implemented application using Spring Boot, Spring Integration, Spring MVC, Spring IOC, Spring Annotations, Spring AOP, Spring Transactions, and Hibernate.
- Experience in developing application, automated scripts leveraging Mongo DB.
- Developed various Custom DAOs using Spring ORM support to persist the records from suitable tables in the database.
- Implemented JWT token-based authentication for the REST API.
- Creating a RESTFUL web service using elastic search services and Creating queries in elastic search.
- Used Apache common digester to parse data from XML files and populate data into java beans.

Environment: Java 1.8, Core Java, Java API, React.js, Apache Tomcat, Maven, Spring 3.2, GIT

Food Printer Pvt Ltd

Chennai, TN

Software Development Intern

Aug 2021 – Dec 2021

- Translating designs and wireframes into high-quality code.
- Proficiently developed the frontend utilizing React.js, while implementing robust backend Rest-APIs with Node.js and PostgreSQL.
- Working closely with the company team to ensure the design is working perfectly or not.
- Participating in weekly company meetings to present design ideas and showcase the work.

TECHNICAL SKILLS

Languages: JAVA, Python, SQL (Postgres)

Tools and Framework: Spring, Hibernate, Spring MVC, Spring Web Flow, Spring IOC, Spring Boot, Kubernetes, Web Services, WebSphere.

Web Technologies: HTML/CSS, JavaScript, react

Version Control: GitHub/BitBucket

Testing Tools: JUnit, Selenium, Mockito

Cloud Technology: Amazon web services aws, azure basics

OS and Environment: MAC and Windows

PERSONAL DETAILS

Date of Birth: Feb 16 2000

Address: 5604 W 134 th Terrace Apt 1511 Weston point Apartment, Overland park kansas 66209
