ACHIEVEMENTS AND LEADERSHIP

- Datathon Winner: Bloomberg** Feb 2025
- Won **Bloomberg** Datathon by analyzing company-provided data and external data research using Python and Power BI to identify key indicators predicting financial crises, enabling proactive risk mitigation.
- Datathon Winner: Philadelphia Flyers** Apr 2024
- Won the **Philadelphia Flyers** Datathon, combining analytical thinking and problem-solving with MS-Excel, Python and Tableau to analyze sales data, identify revenue opportunities, and present data-driven strategies for business growth.
- Center Coordinator and HR head, Rang Dey Zindagi, NGO** Jun 2017 - Aug 2023
- Led a team of 60 tutors across 9 centers to provide elementary Mathematics education, improving engagement and learning outcomes for underprivileged students in under-resourced schools.

SKILLS

- Methodologies:** Data Mining, Data Cleaning, Data Modelling, Data Visualization, Data Pipeline, Statistical Forecasting
- Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib, Plotly, Seaborn, Pytorch, NLTK, Agile, Waterfall
- Tools:** Tableau, Power BI, Cognos, Looker, R Studio, Jupyter Notebook, JIRA, ServiceNow, Snowflake, Databrick, SPSS, Postman
- Database & Cloud Services:** MySQL, MS-SQL, PostgreSQL, Oracle Apex, SAS, SSIS, SSRS, Google Cloud Platform, Azure, AWS
- Programming Languages:** Python, SQL, R, C/C++, C#, HTML, CSS, Java, Powershell-Scripting
- Business Strategy & Leadership:** Project management, Organizational Change Management, Technology Strategy
- Certification:** Microsoft Certified Azure Fundamentals, SQL for Data Analytics and BI, Data Analysis Using Python

EXPERIENCE

- Data Analyst and Visualization Intern** Jun 2024 - Aug 2024
Resilient Communities Cincinnati, OH
- Built machine learning-driven predictive models using Python to forecast stock performance, improving data-driven investment strategies and supporting community-focused initiatives.
 - Designed and implemented interactive Power BI dashboards with custom DAX calculations to support KPI tracking, data storytelling, and actionable insights for stakeholders, enabling data-driven decision-making.
 - Automated data transformation and dashboard update workflows, reducing data processing time by 25% and ensuring real-time integration of new datasets for efficient financial performance analysis.
- Business Intelligence Analyst** Jan 2021 - Jul 2023
IBM Pune, India
- Conducted ETL processes and in-depth analysis of client financial models using advanced SQL queries, collaborating within an Agile Scrum framework to streamline data integration workflows and improve operational efficiency by 30%.
 - Developed interactive dashboards in ServiceNow to visualize KPIs and optimize resolution workflows, achieving a 97% resolution rate for high-priority issues.
 - Automated data processing with optimized PowerShell scripts, enhancing application performance and data management efficiency, leading to faster processing times and more reliable data outputs.
- Database Analyst Intern** Jan 2020 - Jun 2020
IBM Pune, India
- Performed data gathering, cleaning, and modeling for the 'Clinical Information and Scheduling' application, ensuring data accuracy and consistency, enhancing real-time scheduling efficiency.
 - Designed a robust relational database schema in Oracle Database, linking tables and generating detailed reports, streamlining data retrieval processes and increasing user satisfaction with faster results.
 - Conducted extensive testing to validate application performance, identifying and resolving bottlenecks, leading to a 20% reduction in operational downtime and improving system reliability.

ACADEMIC PROJECTS

- Capstone Project: Customer Segmentation for Targeted Marketing and Strategic Insights** Sep 2024 - Dec 2024
- Performed data cleaning, integration and segmentation on a 320K telecom user dataset using Pivot Tables, Python and **Precisely** APIs, to deliver marketing insights using Tableau for customer-focused strategies, improving satisfaction and growth.
- Churn Forecast: Predictive Modeling for Customer Retention (Kaggle)** Apr 2024 - Jun 2024
- Analyzed customer churn patterns using R and ensemble methods, achieving a 92% AUC score enabling proactive retention strategies to reduce churn and improve customer lifetime value (CLV).

EDUCATION

- Master of Science, Business Analytics** Mar 2025
Drexel University, LeBow College of Business Philadelphia, PA
- Relevant Coursework:** Predictive Analytics, Advanced SQL & Database Management, Business Intelligence
- Bachelor of Technology, Computer Science Engineering** Jun 2020
Medi-Caps University Indore, India
- Relevant Coursework:** Data Science, Machine Learning, Data Structures & Algorithms, Object-Oriented Programming, DBMS
