WORK EXPERIENCE

Data Analyst Researcher | CCDS Lab, Syracuse University - DC (Remote) Jun 2024 - Present

- Reduced weekly **financial reporting** time by **9 hours** by developing automated **KPI dashboards** using **SQL and Tableau**.
- Implemented **data quality checks**, decreasing data errors & risks by **20%** in credit card transaction processes, improving accuracy.
- Streamlined credit card data management by automating **ETL pipelines**, increasing efficiency by **20%**, detecting fraud faster.
- Enhanced **customer segmentation** by analyzing data from over **10 Excel sources** using **Python**, reducing campaign time by **15%**.

Business Analyst Intern | DataKind - Syracuse, NY Jan 2024 - May 2024

- Derived **25%** growth in engagement & satisfaction by developing a **Python tool** for **100+** webinars (**5k+** attendees) using **GenAI**.
- Conducted **data analysis** on National Clearinghouse datasets (**100+** universities) to build predictive models for alumni success rates.
- Enhanced retention by **20%** through **requirement analysis, document analysis & predictive analytics** with **Smartsheet & UAT**.
- Collaborated with team via **Asana and Slack** on requirement analysis, improving business operations to align with school needs.

Business Intelligence Analyst | PTC – Boston, MA May 2023 - Dec 2023

- Spearheaded a **healthcare claims analysis project**, optimizing workflows to improve platform engagement by **20%** across providers.
- Applied **time series analysis and anomaly detection**, identifying fraud and saving **\$500K annually** in healthcare claim settlements.
- Designed a **Power BI dashboard** tracking key **healthcare metrics**, boosting patient retention by **15%** through actionable insights.
- Developed predictive **machine learning** models, reducing patient churn errors by **25%** & enabling targeted care interventions.

Data Analyst | Sigma Infosolutions – Bangalore, India Jan 2021 - Jul 2022

- Improved data quality by **30%** for retail through **Exploratory Data Analysis** on **5,000** records, enabling better **decision-making**.
- Increased accuracy by **25%** through developing **VBA** to reduce manual data entry & requirements gathering, enhancing data reliability.
- Analyzed website traffic with **Google Analytics** to identify drop-offs & optimized checkout via **A/B testing**, boosting conversion rates by **5%**.
- Identified high-value customers through **segmentation analysis** & targeted personalized offers, increasing customer lifetime value by **10%**.

TOOLS & SKILLS

Programming Languages: C, Java, Python, SQL, ML, R, HTML

Database Management/ ETL: Microsoft SQL Server, MySQL, Snowflake, Data Warehouse, Query Tool, Azure DevOps, MS Access

Machine Learning: Supervised/Unsupervised Learning, Dimensionality Reduction, Variance Analysis, Regression, Neural Networks

Methodologies: Agile, Scrum, Waterfall, Salesforce, SAP, SAAS, AWS, ERP, CRM, QA, Program Management, SDLC, STLC, Cloud Computing, GCP, Project Management, Product Management, BI Tool, Dynamics AX, Marketing Automation, Marketing Cloud,

Microsoft Dynamics, Pivot Tables, V-look ups, written communication, Service Management, Financial Analysis, Advanced SQL, Qlik

Software: MS Power BI, Tableau, PLM, ALM, MS Project, Slack, Alteryx, Figma, Minitab, MS Word, PowerPoint, MS Excel, Outlook

Product: Smartsheet, Jira, SharePoint, Confluence, MS Visio, Asana, Microsoft Office Suite, Adobe Analytics, A/B Testing, PRD, IT

EDUCATION

Syracuse University - Syracuse, NY Aug 2022 - May 2024

Master of Science in Business Analytics | (GPA: 3.6/4.0)

Coursework: Data science, Business/Data analytics, Database Management systems, Project management, Visual analytics, supply chain

Savitribai Phule Pune University - Pune, IN Aug 2017 - May 2021

Bachelor of Science in Computer Science Engineering | (GPA: 3.6/4.0)

Coursework: Software Development & Product Management, Data Structures, AI, Information Systems, Data Mining, QA/SW Testing

TECHNICAL PROJECTS

Global Climate Trends Dashboard | Tableau, Data Visualization, Business Intelligence | (Link) Jun 2023 - Dec 2023

- Optimized climate **data analysis** by **30%** with predictive models, improving **forecasting** accuracy for the future **trend** assessments.
- Designed a **Tableau dashboard** analyzing climate data from **168** countries, identifying trends to drive **data-driven** climate action.

Food Ordering Database Management System | SQL, Query Optimization, RDBMS | (Link) Jan 2023 - May 2023

- Reduced meal ordering times by **20%** with **SQL scripts** integrated with **Power Apps**, enhancing the **process & user experience**.
- Boosted restaurant efficiency by **35%** through **query optimization** & targeted **product development**, streamlining **operations**.

Movie Ratings: OTT Trend Analysis | Python, Data Analysis, Data Validation | (Link) Aug 2022 – Dec 2022

- Analyzed **10,000+** IMDB ratings using **Python (Jupyter notebook)**, unveiling streaming trends across Netflix, Prime, Hulu, Disney.
- Elevated contents strategy by **25%** through **teamwork**, leveraging insights from IMDB ratings for a more engaging user experience.

CERTIFICATIONS

Certified Scrum Product Owner | Certified Scrum Master | Google Analytics | Product Analytics | MySQL for Data Analytics |

Advanced Microsoft Excel Office Specialist | Lean Six Sigma Green Belt (on-going) | Microsoft Certified: Power BI Data Analyst Associate |

Tableau for Data Visualization | Snowflake essentials: Data Warehouse | SAS Certified Statistical Business Analyst Using SAS'9 (on-going)
