EXPERIENCE

Kofax, USA | Jul 2023 - Present

Role: Business Analyst

- Orchestrated design and development phases of a critical application using Agile methodologies, resulting in a streamlined workflow that cut development time by 30% and facilitated early user feedback integration.
- Conducted a comprehensive gap analysis of the existing system, identifying 40+ deficiencies that hindered operational efficiency; developed a detailed report that outlined actionable steps for system enhancements and proposed requirements.
- Developed comprehensive financial forecasting models using MS Excel to predict cash flow and revenue trends, resulting in a 25% increase in forecast accuracy and enhanced decision-making for senior management.
- Analyzed performance data using desktop recording tools and Tableau Server, identifying key bottlenecks in dashboard loading times; optimized queries, resulting in a 40% increase in dashboard responsiveness and user satisfaction.
- Generated and maintained use case specifications alongside BRD and FRD documents, enhancing project tracking capabilities and ultimately improving stakeholder satisfaction scores by 20% based on subsequent project feedback.

Magna Info Tech, India | Oct 2019 – July 2022

Role: Jr. Business Analyst

- Analyzed and restructured SQL test scripts, increasing execution efficiency by 20%; identified 10 key data issues, implementing solutions that upgraded overall reporting accuracy for the analytics department by 30%.
- Facilitated sprint planning meetings to prioritize a backlog of 50+ design and development tasks; ensured alignment with business objectives, leading to a 25% increase in feature delivery speed over two quarters.
- Generated over 30 reports using Tableau to track business performance metrics, which served as a foundation for quarterly reviews, enhancing transparency and accountability across the organization.
- Specified and documented 15 critical risks in the analysis process, implementing a structured risk assessment framework that improved clarity and efficiency in reporting; enhanced stakeholder understanding of potential issues by 40%.
- Executed User Acceptance Testing (UAT) for software applications, employing HP Quality Center and Rational Requisite Pro; the testing process defined 50+ critical bugs prior to launch, enhancing overall product quality.
- Involved in maintaining the Requirements Traceability Matrix (RTM) across the deliverables for a project.
- Created defect tracking using HP QC and JIRA and reviewed them in subsequent iterations of the application development process.

EDUCATION

Master of Science Management Engineering | University of Maryland - Baltimore, MD | Dec 2023

Bachelor of Technology Computer Engineering | Savitribai Phule Pune University - MH, India | May 2020
