SUMMARY

- Results-oriented Business Analyst with **5+ years** of experience specializing in project management, documentation, and analysis.
- Proven ability to gather, analyze, and document business requirements to support developing and implementing complex solutions.
- Proficient in SDLC, Agile/Scrum, and Waterfall methodologies, with a strong record of accomplishment in cost/benefit analysis, risk analysis, and stakeholder management.
- Skilled in leveraging various elicitation techniques, including interviews, surveys, and document analysis, to gather and document detailed project requirements.
- Expert in requirements elicitation, brainstorming sessions, and JAD workshops.
- Proficient in writing project documentation such as Business Requirements Document (BRD), Functional Requirement Document (FRD), System Requirement Specifications (SRS), and Use Case Specifications and expertise in Salesforce, ERP, and CRM systems.
- Proficient in creating and supervising a Requirement Traceability Matrix (RTM) for tracking and managing changes based on the project's evolving needs.

SKILLS

Methodologies: SDLC, Agile/Scrum, Waterfall, Lean Six Sigma, SAgE (Scaled Agile Framework), ITIL

Languages: Python, SQL, R, Oracle

Documentation: FRD, BRD, SRS, Use Case Diagrams, Process Flow Diagrams

Project Management Tools: MS Project, MS Excel, MS SharePoint, Trello, Monday.com, Asana, ERP, Notion

Visualization Tools: Tableau, Power BI, QlikView

Analysis Skills: Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis, Root Cause Analysis, Business Process Modeling (BPMN)

Tracking/Other Tools: Jira, Confluence, Microsoft Visio, JAD, RTM, UAT,

Data Analysis and Reporting: Advanced Excel (Pivot Tables, VLOOKUP, Macros), Google Analytics, SQL-based reporting

Soft Skills: Time Management, Leadership, Problem-Solving, Negotiation, Decision-Making, Stakeholder Engagement

Emerging Skills: Business Intelligence (BI), Cloud-based Analysis (AWS QuickSight, Microsoft Power Platform), AI/ML basics for business solutions, AI Business Analyst

EDUCATION

Master of Science in Information Systems	Sep 2021 – Aug 2023
Northeastern University, MA	
Bachelor of Engineering in Information Technology	June 2013 – May 2018
University of Mumbai, India	

EXPERIENCE

The Hartford, MA | Aug 2024 – Current | Sr. Business Analyst

- Led Agile teams, defining 50+ user stories, acceptance criteria, and sprint plans for successful Salesforce projects.
- Collaborated with cross-functional stakeholders, translating business needs into actionable requirements, achieving a 20% improvement in alignment.
- Integrated Salesforce with ERP system, resulting in a 30% enhancement in order processing efficiency.
- Conducted thorough business process analysis, identifying and implementing improvements, leading to a 25% increase in operational efficiency.
- Engineered a suite of performance dashboards and reports in JIRA, enabling executive stakeholders to track project milestones and identify bottlenecks; boosted project efficiency by 25% and reduced time to-decision by 30%.
- Played a pivotal role in ERP system selection, vendor evaluation, and implementation, contributing to a 15% reduction in costs.
- Led data migration efforts, ensuring 100% data accuracy and completeness during system transitions.
- Created 20+ customized reports and dashboards in Salesforce, providing critical business insights for informed decision-making.

Fidelity Investments, MA | Feb 2023 – Aug 2024 | Business Analyst

- Spearheaded the implementation of SDLC and Agile/Scrum methodologies, optimizing system enhancements and reducing project timelines by 20%.
- Implemented Python scripts utilizing Pandas and NumPy libraries in conjunction with SQL queries to perform ETL processes, resulting in a 40% reduction in data processing time and ensuring 99% data accuracy for reporting and analysis.
- Directed the development of visually compelling reports and dashboards in MS Excel, PowerPoint, Tableau, and Power BI, enabling stakeholders to make data-driven decisions and drive strategic initiatives, leading to a 25% increase in forecasting accuracy.
- Conducted a comprehensive SWOT analysis, identifying key strengths, weaknesses, opportunities, and threats to inform strategic decision-making and drive risk mitigation strategies. This analysis led to a 25% improvement in operational efficiency.
- Utilized tracking tools, including GIT, Test Director, MS Visio, and HP Quality Center, to organize project documentation and ensure compliance with industry regulations and reporting standards, ensuring seamless project management and regulatory adherence.
- Demonstrated strong skills in project management, communication, critical thinking, and data analysis, fostering collaboration and driving successful project outcomes in a fast-paced environment.
- Collaborated with internal stakeholders and external partners to streamline data management processes and ensure alignment with regulatory requirements (GAAP, IFRS, SOX compliance), contributing to improved efficiency and compliance within the organization.
- Provided training and support to end-users on ERP, CRM, Salesforce, and analytics tools, enhancing usability and satisfaction.

Neon IT Systems, India | June 2018 - Aug 2021 | Business Analyst

- Directed and led Scrum meetings, employing Agile techniques to ensure consistent project deadline adherence.
- Achieved a 95% on-time project completion rate through effective Scrum practices.
- Attained a 20% increase in cost efficiency through meticulous analysis.
- Improved project tracking, resulting in a 30% reduction in planning time.
- Enhanced data comprehension by 25%, leading to more informed decision-making.
- Utilized analytical skills to assess healthcare data, executing cost/benefit analyses, impact assessments, GAP analyses, and risk evaluations to drive strategic decisions and operational efficiency.
- Documented Functional Requirements (FRD), Business Requirements (BRD), and System Requirements (SRS) using UML and RTM methodologies, ensuring clear understanding and alignment across stakeholders.
- Applied Agile methodologies within the SDLC framework to lead projects from conception to implementation.
- Collaborated with cross-functional teams and utilized Confluence and MS Project to track progress and ensure timely delivery.
