EDUCATION

University of Illinois Springfield
Masters in Management Information system

Illinois, USA
December 2023

Koneru Lakshmaiah University (KLU)
B.Tech, Electronics & Communication Engineering

Andhra Pradesh, India
April 2022

EXPERIENCE

OneAmerica Financial

Remote, USA

Data Analyst

Jan 2023 - Present

- Developed interactive Power BI dashboards, leading to a 15% increase in ROI through optimized marketing and sales strategies.
- Enhanced data integrity by 30% through the development of SQL validation scripts, in collaboration with data engineers, to identify and resolve data anomalies.
- Defined KPIs with cross-functional teams using Excel, resulting in a 20% increase in customer satisfaction.
- Integrated web analytics data into Excel using SQL to create dynamic dashboards for in-depth analysis.
- Analyzed customer behavior and product usage by creating comprehensive reports with Tableau and Excel VBA.
- Developed SQL queries for real-time sales analysis, enabling quick responses to market changes and enhancing decision-making agility.
- Evaluated advanced analytics techniques, increasing actionable insights by 15%, optimizing marketing strategies and boosting conversion rates.
- Resolved data integrity issues with engineering teams, reducing data errors by 30% and ensuring accurate financial reporting.
- Conducted in-depth analysis of key metrics, presenting findings in dashboards that improved product decision-making by 25%.
- Built and maintained self-service dashboards, cutting ad-hoc reporting requests by 40% and improving reporting efficiency.

Deloitte

Hyderabad, India

Data Analyst

April 2022 - Aug 2022

- Leveraged Big Query (SQL) in GCP to extract and transform marketing data from disparate sources, enhancing trend identification accuracy by 40%.
- Designed dashboards to track crucial metrics profits, revenue, user ratings, performance trends, and sales forecasts to support data-driven management decisions.
- Participated in agile project teams, contributing analytical insights that drove project outcomes and enhanced team collaboration.
- Analyzed customer acquisition data using Python, developing predictive models that reduced churn by 10% through targeted retention campaigns.
- Designed and implemented automated reporting systems, enhancing the accuracy and timeliness of business intelligence outputs.

Deloitte

Hyderabad, India

Data Analyst Intern

Jan 2022 - March 2022

- Collaborated with cross-functional teams to define data requirements, improving data accessibility by 20% and speeding up decision-making.
- Created visual reports and insights, contributing to a 10% reduction in operational costs by identifying inefficiencies.
- Documented data processes and created user manuals, facilitating knowledge transfer and onboarding for new team members.

TECHNICAL SKILLS

- Programming Languages & Open-source frameworks: Python, PySpark, R Language
- Database: MySQL, PostgreSQL, MS SQL Server, MS Access, NoSQL, Redshift
- Data Analytics: Tableau, MS Excel, Google Analytics, Power BI, QlikView
- Machine Learning and Statistical Methods: Supervised, Clustering, Multivariate Regression, Chi-square Test, A/B Testing, Productionizing Models, Recommendation Engine, Customer Segmentation
