

Saikiran Garlapati | ServiceNow Analyst

KS, USA | +1 913 374 8886 | Gsaikiranedu4@gmail.com | [LinkedIn](#)

SUMMARY

ServiceNow Analyst with **3+ years of experience** improving IT service delivery through streamlined workflows, stronger compliance, and faster resolution times. Skilled in collaborating with stakeholders to translate business needs into practical solutions while ensuring regulatory alignment. Known for reducing service delays, increasing adoption of self-service options, and supporting leadership with actionable insights. Experienced in Agile environments, driving measurable improvements in efficiency, user satisfaction, and overall service performance across enterprise operations.

EDUCATION

Master's degree, Computer Science

Aug 2023 - May 2025

University of Central Missouri, USA

Bachelor of Technology Electrical, Electronics and Communications Engineering

Jul 2018 - Aug 2022

Sphoorthy Engineering College, India

TECHNICAL SKILLS

ServiceNow Platform: Incident, Problem, Change, Service Catalog, CMDB, Asset Management, Knowledge Management

Configuration & Reporting: Forms, Catalog Items, Flow Designer, Notifications, SLA Tracking, Dashboards, Performance Analytics

Process & Frameworks: ITIL v3/v4, Service Request, Change Management, Compliance (SOX, HIPAA, GDPR)

Business Analysis: Requirements Gathering, User Stories, Gap Analysis, Process Mapping, UAT, Documentation, Training

Integrations & Technical: REST/SOAP APIs, Data Migration, Basic JavaScript, Glide API

Agile & Collaboration: Agile/Scrum, JIRA, Stakeholder Communication, Cross-Functional Teamwork

Emerging Tools: Virtual Agent, Predictive Intelligence, Now Assist

Core Skills: Problem Solving, Communication, Analytical Thinking, Time Management

PROFESSIONAL EXPERIENCE

MetLife, USA

Jan 2025 - Current

ServiceNow Analyst

- Boosted SLA compliance 27% by redesigning Incident, Problem, and Change workflows, ensuring faster ticket resolution and stronger adherence to ITIL v4 best practices.
- Automated request approvals using Flow Designer, cutting manual interventions 40% and reducing average fulfillment times from three days to under one day.
- Built ServiceNow dashboards and analytics reports, reducing SLA breach investigations from hours to minutes and improving leadership decision-making speed.
- Increased CMDB data accuracy 22% by executing audits and corrections, strengthening SOX, HIPAA, and GDPR compliance while minimizing audit risks.
- Integrated ServiceNow with six enterprise applications through REST/SOAP APIs, eliminating duplicate data entry and improving operational efficiency.
- Raised self-service adoption 18% by implementing Virtual Agent enhancements and updating Knowledge Management, reducing ticket volumes.
- Reduced onboarding timelines 35% by developing training workshops and process documentation for new ServiceNow users.
- Lowered incident reassignments 20% by introducing predictive intelligence features, improving first-touch resolution across IT operations.

CitiusTech, India

Mar 2022 - Jul 2023

ServiceNow Analyst

- Cut repeat incidents 23% by customizing ITIL-aligned workflows for Incident, Problem, and Change modules, strengthening long-term system stability.
- Improved SLA adherence 19% by implementing escalation paths and notifications, ensuring timely responses and reducing service-level violations.
- Accelerated request fulfillment 32% by designing Service Catalog items with automated approval workflows, streamlining service delivery.
- Reduced reporting time 50% by creating dashboards and analytics reports, enabling faster leadership insights into SLA compliance and backlog trends.
- Increased feature adoption 21% by leading UAT sessions, preparing documentation, and training end users on platform enhancements.
- Improved workflow continuity 18% by integrating ServiceNow with external systems using REST/SOAP APIs, reducing manual rework.
- Lowered post-deployment support tickets 15% by resolving requirements gaps during UAT and validation phases.
- Delivered six Agile sprint enhancements on schedule, maintaining velocity and improving stakeholder satisfaction.

CitiusTech, India

Feb 2021 - Feb 2022

ServiceNow Support/Operations Analyst

- Resolved 1,200+ annual tickets in Incident, Request, and Change modules, maintaining 96% SLA compliance.
- Reduced recurring incidents 14% by conducting root cause analysis and driving permanent fixes with engineering teams.

- Improved CMDB accuracy 20% through structured audits and corrections, ensuring audit readiness and compliance.
- Increased first-call resolution 17% by publishing knowledge base articles and training Service Desk agents.

PROJECTS

Women Safety Device | Academic Project | Hyderabad | Duration: 4 months | Team Size: 4

- Designed a GPS-enabled emergency response system integrated with mobile devices, ensuring real-time alerts and improving personal safety during critical situations.
- Developed system-device communication workflows to enhance reliability of location sharing and reduce alert transmission failures.
- Collaborated with a four-member team on requirements mapping, solution design, and user-focused documentation for real-world deployment.

Smart Door Lock using Fingerprint Sensor | Academic Project | Hyderabad | Duration: 3 months | Team Size: 3

- Built a biometric access control system using fingerprint authentication with secure backend storage for identity verification and access governance.
- Developed authentication workflows with error-handling mechanisms and notification triggers, ensuring system reliability and improved security.
- Led backend development, user data management, and documentation, aligning with compliance principles of security and controlled access.

CO-CURRICULAR ACTIVITIES

- Served as Class Representative, coordinating student-faculty communication and academic initiatives.
- Organized and supported multiple college-level events, enhancing leadership and teamwork skills.
- Participated in workshops on IoT, Arduino, and Robotics, gaining exposure to hardware-software integrations.
