EDUCATION

University of Florida College of Liberal Arts and Science

Gainesville, FL

Bachelor of Science in Computer Science

Aug. 2021 – May 2025

GPA: 3.68/4.00

Relevant Coursework: Data Structures and Algorithms, Intro to Software Engineering, Discrete Structures, Computational Linear Algebra, Operating Systems, Programming Language Concepts, Foundations of ML

EXPERIENCE

WebstaurantStore

Remote

Business Intelligence Developer Intern

May 2024 – Aug. 2024

- Established a structured data dictionary framework for DAX queries in PowerBI, enhancing clarity for 200+ data fields and accelerating new analyst onboarding
- Created and revised SQL stored procedures, facilitating their progression through user acceptance testing, code reviews, and successful deployment
- Conducted research spikes to identify and verify sources of truth for product owners, ensuring accurate data sourcing and validation

eBacon

Remote

Software Engineer Intern

May 2023 – Aug. 2023

- Automated client portfolio rebalancing via a custom SQL AutoRebalance procedure, optimizing investment orders and reducing manual workload
- Modernized the company's case management system using React.js
- Actively engaged in daily 401k developer stand-ups as part of an Agile team

TAMID - Tech Consulting Track

Gainesville, FL

President of Tech Consulting

Jan. 2024 – Present

- Elected President of Tech Consulting after successfully delivering 3 tech projects to various clients, demonstrating strong leadership and project management skills
- Responsibilities entail coordinating with Startups in Israel to find a project suitable for our team to work on
- Led weekly developer meetings to streamline communication, minimize blockers, and reduce project delays

PROJECTS

Internshark (www.internshark.us)

- Implemented a student-first web application, enabling mass application to over 4,500+ internships across the U.S
- Built with Next.js, Express, PostgreSQL, Firebase, Stripe, and integrated APIs to scrape job boards

Internos ([Internos.vercel.app](https://internos.vercel.app))

- AI-powered chatbot utilizing VannaAI for text to sql to provide personalized internship recommendations
- Built with React, DaisyUI, Flask, PostgreSQL

Shopilot Chatbot (app.shopilot.fyi)

- Improved an AI-powered Chatbot using Next.js with integrated Google authentication with Firebase
- Implemented features for storing and displaying previous chats and pinning chats, increasing user retention

AutoRebalance SQL Procedure

- Automated the rebalancing of multiple portfolio management based on custom stock selections
- This included automated sell orders and a monitoring system to track sell orders before initiating buys

TECHNICAL SKILLS

C++, CSS, Firebase, Git, HTML, JavaScript, Linux, MongoDB, Node, PostgreSQL, PowerBI, Python, React, SQL

Certifications: Bloomberg Market Concepts, Microsoft Azure Fundamentals, Postman API Fundamentals
