RESHMA NALLURI

JAVA FULL STACK DEVELOPER

<https://www.linkedin.com/in/n-reshma/>

SKILLS

Backend Technologies:

Java, Spring Boot, Microservices, Hibernate, JUnit, Mockito, DevOps, Kubernetes, Postman, Jira, Object-Oriented Principles (OOP), API Gateway, SonarQube

Frontend Technologies:

HTML, CSS, JavaScript, React.js, Bootstrap, JSP, XML, Ajax.

Cloud Technologies:

AWS (EC2, DynamoDB, Load balancer, Gateway, Code Commit, Cognito, Fargate, Glue, Athena, Lambda, IAM, Elastic Search, ECR, S3, CloudFront, SQS, AWS SNS, Event Bridge, Kinesis).

Database Technologies:

MySQL, Oracle, mongo DB.

IDE:

Eclipse, IntelliJ, Notepad++

PROFESSIONAL SUMMARY

- Over 4+ years of software experience in designing and developing web applications using backend and frontend technologies.
- Proficient in a wide range of technologies including Java, Hibernate, Spring, Web services, JSP, XML, JDBC, JavaScript, AngularJS, React JS, HTML, CSS, Bootstrap, jQuery, SQL, PL/SQL, Oracle, and MySQL
- Experienced in client-side scripting languages (HTML5, CSS3, JavaScript with ECMA6 features, TypeScript) and server-side scripting languages (jQuery, JSON, Bootstrap, React).
- Expertise in the entire Software Development Life Cycle (SDLC), from Requirement Analysis to Design, Development, and Testing.
- Strong skills in implementing and deploying SOAP API Web Services and RESTful Services (JAX-RS) for dynamic server-side web content.
- Proficient in implementing MVC design patterns using Struts and Spring Framework.
- Expertise in designing, developing, and deploying applications using J2EE technologies such as Servlets, JSP, EJB, Spring, Spring Boot, JSF, JMS, AJAX, JDBC, GWT, Java Beans, Hibernate, and Web Services.
- Demonstrated proficiency in MongoDB development, including reports, schema design, and migrations from SQL to NoSQL databases like MongoDB, Cassandra, and CouchDB.
- Skilled in designing UI patterns and developing applications using tools like Eclipse, IntelliJ, Spring tool suite, Sublime Text, and Notepad++.
- Experienced in creating various UI widgets using jQuery and applying advanced approaches like MVC patterns, object-oriented JavaScript, jQuery, and JSON.
- Strong experience with SQL Databases like MySQL, Oracle, and NoSQL databases like MongoDB, Cassandra, Dynamo DB, and HBase.
- Proficient in build and CI/CD tools like Maven, Jenkins, Kubernetes, and SonarQube for streamlined development and deployment processes.

PROFESSIONAL EXPERIENCE

Citi Bank, Tampa, FL

January 2023 – Present

Java Full Stack Developer

- Participated in requirements gathering from clients, estimating the number of hours required for the various phases of Software Development Life Cycle (SDLC).
- Led the transition from Spring-to-Spring Boot, reducing deployment time and boosting productivity.
- Created efficient design and developed User Interaction screens using HTML, CSS, JavaScript, Angular, jQuery, AJAX, and JSON.
- Worked with React JS to build Bootstrap components for responsive UI Objects and linked with API data to view render the virtual DOM dynamically.
- Spearheaded the shift from a monolithic app to Microservices, improving scalability and deployment efficiency.
- Developed REST APIs for optimized data transfer and faster API response times.
- Utilized Hibernate and MySQL to optimize database performance and query response times.
- Implemented unit testing with JUnit and Mockito, reducing post-deployment issues and enhancing code quality.
- Worked on design and development of AWS lambda (Java) and exposed endpoint using AWS API gateway endpoints.
- Deployed DevOps solutions in AWS with Jenkins, Kubernetes and Terraform, minimizing deployment failures.
- Implemented OAuth 2 (Rest service authentication) in our application to communicate securely with other protected resources by exchanging access tokens for authentication instead of using username and passwords.
- Conducted API testing with Postman, resulting in improved test coverage and fewer API-related bugs.
- Wrote and executed various SQL Queries to retrieve the data from the database Oracle.
- Integrated MongoDB with Spring Boot to leverage the power of both technologies for building robust and scalable applications.
- Effectively collaborated in Agile teams, analyzing Jira stories to ensure accurate estimation.
- Ensured code quality through SonarQube, reducing vulnerabilities, and enhancing code reliability.
- Implement continuous integration and continuous deployment (CI/CD) pipelines to streamline the workflows.
- Successfully managed INCs, REQs, and CRs, leading to high customer satisfaction and quicker issue resolution.

TATA Consultancy Services, Hyderabad, India

January 2019 – November 2021

Java Developer

- Revamped website design with HTML, CSS, and React.js, resulting in increased page views.
- Proficiently leveraged Spring Boot to streamline application development, significantly reducing deployment time, and enhancing productivity while ensuring seamless scalability in a microservices architecture.
- Led the transformation to Microservices architecture, improving scalability and deployment efficiency.
- Engineered REST APIs for improved data transfer efficiency and faster response times.
- Utilized Hibernate and Oracle, optimizing query performance and overall database efficiency.
- Implemented rigorous unit testing with JUnit and Mockito in Java, enhancing code quality and reducing post-deployment issues.
- Successfully integrated Cassandra, a NoSQL database, with Spring Boot applications, enabling seamless data access and manipulation.
- Created and implemented S3, Lambda, EC2.
- Deployed backend application in a serverless environment like lambda and deployed some applications in EC2.
- Deployed a DevOps solution on AWS with Jenkins, Kubernetes and RLM minimizing deployment failures and ensuring high uptime.
- Worked on API automation using Postman for testing of webservices.
- Experience of Version control software such as GIT, GITHUB.

EDUCATION

Master of Science in Computer Science | Texas Tech University, TX

May 2023

Bachelor's in computer science | Vasireddy Venkatadri Institute of Technology, IN

May 2019
