EDUCATION

Stevens Institute of Technology, Hoboken, NJ

Master of Science in Computer Science

May 2023

CGPA: 3.82/4.00

SRM Institute of Science and Technology, Chennai, India

Bachelor of Technology in Computer Science and Engineering

May 2018

CGPA: 3.59/4.00

TECHNICAL SKILLS

Certifications: AWS Certified Solutions Architect Associate, SAP Certified Technology Associate – Process Orchestration, Programming, Data Structures, and Algorithms using Python, NPTEL

Languages: JavaScript, Node.js, Python, React, .Net, Java, HTML, CSS, C, C++

Database: SQL, NoSQL, MongoDB, DynamoDB, PostgreSQL

Competencies: Handlebars, Express.js, ML, NLP, NumPy, Pandas, Scikit-learn, NLTK, Web Scraping, Data Modelling, Web Scraping, AWS S3, EC2, EMR, SAP PI, SAP PO, SAP CPI, CI/CD, Redux

Tools: Postman, SoapUI, Git, AWS CloudWatch, VPC, VPN, REST, JSON, middleware, AJAX, AWS Lambda, Jenkins

EXPERIENCE

Larsen and Toubro Infotech | Software Engineer | Chennai, India

August 2018 – July 2021

- Implemented diverse functionalities utilizing the MVC architecture in Dot Net, including create, read, update, delete, message, SMS, image, document, and email operations, resulting in enhanced application performance, streamlined business processes, and increased productivity
- Designed and developed interactive dashboards to enhance UI/UX, resulting in alleviated user engagement
- Accomplished the creation of a MySQL-based relational database schema for user and business reference APIs, resulting in faster and more accurate data retrieval and boosted overall business performance
- Accomplished integration of Apache Tomcat server and SAP using REST API, resulting in seamless data exchange
- Spearheaded a team of 40+, and devised documentation and an activity tracker, resulting in a 25% increase

Electronics Corporation of India Limited | Android Developer Intern | Hyderabad, India

June 2017 – July 2017

- Built an Android app with CRUD functionality leveraging Android Studio and SQL, inferable in a seamless user experience and improved business performance

Caprus IT | Java Developer Intern | Hyderabad, India | [\[GitHub\]](#)

December 2016 – January 2017

- Developed a Java Servlet-based web application with CRUD functionality and JDBC connectivity, ensuing in advanced data management and processing efficiency

ACADEMIC PROJECTS

Portfolio Management | [\[GitHub\]](#)

March 2023 – April 2023

- Implemented a dynamic application utilizing React, Calendar, Accordion, Nivo, MaterialUI, Yup, DataGrid to provide seamless scheduling, data-driven decision-making, advanced reporting, and data visualization in light and dark modes

Pipelining using AWS

May 2022 – July 2022

- Devised Nginx, Alpine, and Ubuntu servers utilizing EC2 instances within the S3 bucket for server infrastructure
- Generated and managed images and containers in Docker and Kubernetes using the command line interface
- Established CI/CD pipelines using Jenkins and automated infrastructure deployment of EC2 instances and S3 buckets through Terraform, resulting in streamlined software delivery and amplified scalability

Marvel API | [\[GitHub\]](#)

November 2021 – December 2021

- Created a Marvel API-integrated Node.js web app with dynamic UI, improving user experience and engagement

ConnPsych | [\[GitHub\]](#)

November 2021 – December 2021

- Established a connection for patients with Psychiatrists using a Node.js chat application with Socket.IO and fabricated User Interface with Dashboard and Blogs for a better experience
- Designed and executed a MongoDB database schema with a set of collections to achieve efficient data retrieval

Detection of Sarcasm under Sentiment Analysis | [\[GitHub\]](#)

January 2018 – April 2018

- Built precise data models using Support Vector Machines, K Nearest Neighbors, and Random Forest with feature extraction techniques, achieving accuracies of 67.5%, 62.3%, and 61.8% respectively for Amazon product reviews

PUBLICATIONS

- Co-author, “A comprehensive study on Sarcasm Detection techniques in Sentiment Analysis”, International Journal of Pure and Applied Mathematics, Volume 118, No. 22, 2018, pp 433-442 [\[Link\]](#)
