Professional Summary

- Over 5 years of hands-on expertise in IT Global Commercial operations in the medical device industry.
- Supported pivotal initiatives such as the seamless migration from Microsoft D365 CRM to Salesforce CRM, for over 600 users, which resulted in a 95% adoption and optimizing operational workflows.
- Passionate for merging business processes and technology to drive innovation and in international business, spearheaded the successful launch of a mobile sales application across Australia and New Zealand as a project manager.

Work Experience

NuVasive, Inc., San Diego, California

October 2021 – Present

Business Analyst/ Project Manager, IT Global Commercial

- Refined user stories and acceptance criteria for software projects such as a mobile sales application, ensuring clear communication between business, technical, and global vendor teams in a technical fast-paced environment.
- Planned and led deployments with cross-functional teams in tracking project delivery activities, and timelines, and directly supported business partners during deployment activities.
- Led monthly "Project Review Meetings" and Steering Committee Meetings across the IT department, preparing, and presenting the status of IT International projects to management and executive leaders.
- Supported the transition from NuVasive's Microsoft D365 CRM to Salesforce CRM, managing cross-departmental efforts and facilitating User Acceptance Testing with more than 15 cross-functional teams across several business departments.
- Launched NuVasive's mobile sales application in Australia and New Zealand, serving as the primary contact for international stakeholders and overseeing timelines, project schedules, and roadmaps for up to 50 users.
- Led a high impact IT cultural committee, organizing engaging events for more than participants, and fostering a vibrant work culture through dynamic activities and impactful community initiatives like beach clean-ups.

NuVasive Associate Business Analyst, IT International

October 2019 – October 2021

- Provided IT support for ERP tickets to software engineers in the Asia Pacific (APAC) and Europe (EMEA) regions, utilizing International Business Systems and IT software applications.
- Conducted requirement gathering and user acceptance testing in the Japanese language for the successful launch of a mobile sales application to over 200 users in Japan, delivering a tool where users can create surgery orders without relying on lengthy after-hours phone calls to customer service and reducing overtime, which increased operational efficiency by 35%.
- Analyzed and assessed stakeholder feedback for several mobile applications, identifying opportunities for product improvement.
- Streamlined project management through regular status meetings and weekly reports, while identifying risks and tracking issues, as the Agile Scrum Master for the International Team.

Midtown Wealth Advisors, Inc., Torrance, California

February 2019 – May 2019

Operations Associate Intern

- Supported financial advisor in maintaining and servicing high net-worth clients, both private and corporate, for financial planning purposes.
- Established and fostered enduring relationships with high-net-worth clients to deliver superior asset allocation and financial analysis services.
- Prepared comprehensive training sessions for financial advisors on wealth and estate management.
