## Summary

Astute problem-solver with a passion for the diverse world of tech. I am a driven and creative individual that is pursuing a career in software development and information technology. As a Data analyst at Empire Southwest, I have worked hard to establish a name for myself as someone who makes things easier for others by leveraging technology to its utmost potential. Moving quickly through the ranks, I have developed numerous automation processes to make the life of my coworkers more efficient.

## Education

**University of Nevada, Las Vegas**

Aug. 2020 - Dec. 2021

Bachelor of Liberal Arts in Psychology

## Experience

**Information Systems Data Analyst: Empire Southwest**

Jun. 2023 - Current

- Automation of business processes leveraging Microsoft Power Platform to provide scalable and maintainable solutions for business units.
- Leveraged Microsoft fabric and notebooks to perform small data engineering and database management tasks such as using Notebooks to perform ETL on data that comes from Power Automate RPA processes and setting up lakehouses to store the cleaned and transformed data.
- Power App development.
- Power Automate RPA development.
- Converted and rebuilt 18 Business automations from one SharePoint tenant to another.
  - Parsed through workflows and processes built in sharepoint designer and rebuilt in Power Platform.
- Assisting in the development of business automation processes across the Dealership. Typically involving API usage to download and manipulate data from Caterpillar websites and resources.
