Professional Summary

Python Developer with 2+ years of experience in building scalable web applications using Django and Flask

Demonstrated proficiency in using Python to develop scalable and efficient software applications

Experienced in using frameworks such as Django and Flask for web development

Skilled in RESTful APIs, cloud platforms (AWS, Azure), and database management

Hands-on experience with both SQL and NoSQL databases, ensuring secure and optimized data storage

Utilized data analysis tools to automate processes and generate insightful reports

Adept at working in Agile teams and contributing to team objectives and project goals

Leveraged data engineering tools like Spark, ADF, and Databricks

Passionate about clean code, continuous learning, and building impactful software solutions

Stayed abreast with the latest industry trends and technologies, continuously improving coding skills and practices

Technical Skills

Technical Skills:

Programming Languages: Python, C#, JavaScript

Data Science Libraries: pandas, NumPy, scikit-learn, matplotlib, seaborn

Machine Learning: supervised learning, classification, regression, model evaluation

Data Engineering: Data Pipelines, ETL, Azure Data Factory, Databricks

Databases: SQL, PostgreSQL, MongoDB

Cloud Tools: AWS, Azure, Amazon RDS

Data Engineer: ETL, Spark, Azure Data Factory, Databricks, Azure Data Lake, Azure Storage, Azure Synapse, AWS, Amazon RDS

Certifications

C for Everyone: Structured Programming

g

Python 3 Programming

AI for Everyone

Capstone: Retrieving, Processing, and Visualizing Data with Python

Python Project: Software Engineering and Image Manipulation

Work Experience

Junior Analyst

Capgemini, Pune, India

January 2021 – January 2023

Responsibilities:

Build interactive forms and design effective email marketing campaigns that save data into the database using the DJANGO framework

Developed and completed an API-driven publishing service to manage 20M monthly page views with a 96% cache efficiency rate

Revised existing Python/DJANGO modules and design architectures for 5+ products, helping reach 2M users per month

Used pandas and NumPy for preprocessing large-scale assessment data to derive scoring patterns and anomalies.

Built a data pipeline integrating Dataverse with Azure Data Factory to automate report generation.

Academic Summary:

University of Massachusetts Dartmouth, MA-- **Master of Science, Computer Science** | GPA:

3.7 | January 2025

Jawaharlal Nehru Technological University, India – **Bachelor Of Technology, Electronics and Communication Engineering**, | GPA:8.9 | March 2022
