Summary

B.E in Information Technology graduate (May 2025) with hands-on DevOps experience gained through internships and real-world projects. Built CI/CD pipelines using AWS services and GitHub Actions to streamline deployments and reduce manual effort. Experienced with containerization using Docker, cloud infrastructure automation, and configuration management tools. Proficient in Java and Python, with a solid foundation in software engineering principles. Microsoft Azure (AZ-900) certified and passionate about cloud technologies. Eager to apply technical skills and a collaborative mindset to contribute to DevOps engineering teams.

Experience

Arc Solutions

Jan 2025 – Present

DevOps Intern

arcsolutions.asia

- Built and deployed CI/CD pipelines for Apollo International School's appointment booking system using AWS services (ECR, Elastic Beanstalk) and GitHub Actions automation
- Implemented containerized deployment workflows with Docker, improving build consistency and reducing deployment errors
- Configured infrastructure monitoring and automated deployment processes, gaining hands-on experience with production DevOps practices

Webfictive Solution

June 2024 – July 2024

Software Developer Intern

webfictive.com

- Developed desktop applications using Java AWT/Swing framework, for concurrent users by optimizing UI/UX design
- Designed and implemented MySQL database architecture with normalized schemas, improving query performance and data integrity

Future Finders

June 2023 – July 2023

Full Stack Developer Intern

futurefinders.in

- Built responsive web applications using modern tech stack (React.js, Node.js, MongoDB)
- Implemented RESTful APIs and database integration and seamless user experience
- Utilized Tailwind CSS and JavaScript to create dynamic, accessible interfaces with 100% responsive design compatibility

Key Projects

AWS DevOps CI/CD Pipeline | AWS ECR, Elastic Beanstalk, GitHub Actions, Docker

[Code](#)

- Built end-to-end CI/CD pipeline using AWS services (ECR, Elastic Beanstalk) integrated with GitHub Actions for automated deployments.
- Implemented IAM role-based security and automated Docker container builds with basic vulnerability scanning.
- Configured auto-scaling infrastructure and learned deployment best practices through hands-on implementation.

Wisecow Kubernetes Deployment | Docker, AWS EKS, Terraform, Ansible, GitHub Actions, TLS

[Code](#)

- Deployed containerized application to AWS EKS using Docker and Kubernetes, ensuring high availability and scalability
- Automated infrastructure provisioning using Terraform and orchestrated Kubernetes setup with Ansible, reducing manual setup time by 80%.
- Designed and integrated CI/CD pipeline using GitHub Actions for seamless Docker builds and zero-downtime Kubernetes deployments.
- Secured application with HTTPS by configuring cert-manager and NGINX Ingress for automated TLS provisioning and renewal.
- Enabled autoscaling, TLS encryption and health check scripts with resource optimization.

Education & Certifications

Panjab University - Chandigarh, IN

August 2022 – May 2025

Bachelor of Engineering in Information Technology

CGPA: 7.4/10

- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management, Cloud Computing, Agile Project Management
- **Key Achievement:** Technical Head for Aequitas 2024 - University's premier Law and Cultural Festival, managing technical infrastructure for 1000+ participants

Government Polytechnic Dehradun - Dehradun, IN

August 2018 – May 2021

Diploma in Information Technology

CGPA: 7.8/10

Technical Proficiencies

Cloud Platforms & DevOps: Amazon Web Services (EKS, EC2, S3, IAM, VPC, SG, ECR, Elastic Beanstalk, Route 53, CloudWatch, ALB), Azure DevOps (Pipelines, Repos, Artifacts), Google Cloud Platform (GCP), Docker, Kubernetes, Jenkins, Terraform, Ansible, Prometheus, Grafana, Jira, AWS CloudFormation

Programming & Scripting: Java, JavaScript, Bash/Shell Scripting, SQL, Python, Selenium Testing, Appium, Tkinter GUI Development

Web Technologies & Tools : HTML5, CSS, Bootstrap, Tailwind, React.js, Node.js, Apache, NGINX, WordPress CMS, Microservices Architecture, Linux Administration, Visual Studio Code, IntelliJ IDEA, Vagrant, Apache NetBeans IDE, MySQL Workbench

Core Competencies: CI/CD Pipelines, Continuous Integration, Continuous Deployment, Infrastructure as Code (IaC), Container Orchestration, Database Management, Agile Methodology, Configuration Management

Professional Skills: Technical Communication, Problem Solving, Team work, Leadership, Self-motivation, Self-directed Learning

Professional Certifications

- **Microsoft Azure Fundamentals (AZ-900)** - Cloud Architecture & Services
- **TCS National Qualifier Test (NQT)** - Python: 80%, Overall Score: 61%
- **Google Cloud Skills Boost** - 30 Days Hands-On Cloud Training Program
- **Azure DevOps Fundamentals** - CI/CD Pipeline Development & Management
- **AWS EC2 Certification** - Elastic Compute Cloud Architecture & Deployment
- **ISRO Remote Sensing Workshop** - Satellite Applications & Geospatial Technologies
