Data Analysis & Business Intelligence: Data Cleaning, Data Wrangling, Performance Metrics, A/B Testing, Statistical Analysis, Forecasting
Data Visualization Tools: Power BI, Tableau, Looker, Microsoft Excel (Pivot Tables, VLOOKUP, Macros, Power Query)
CRM & ERP Systems: Salesforce, HubSpot, SAP, Oracle ERP, Microsoft Dynamics, NetSuite
Cloud & Data Management: AWS, Azure, Google Cloud (BigQuery, Snowflake, Redshift), ETL Processes, Data Warehousing
Soft Skills: Stakeholder Management, Communication & Presentation, Problem-Solving, Decision-Making, Documentation, Negotiation

Work Experience

Business Analyst, IBM Jan 2024 – Present | Remote, USA

- Facilitated workshops with stakeholders to gather detailed requirements, contributing to the launch of new product features that improved customer satisfaction by 35% and grew product usage by 20% within the first quarter of launch.
- Led the design and implementation of a new analytics framework, providing real-time reporting that increased operational efficiency by 40%, enabling faster insights into key business metrics.
- Conducted in-depth data analysis to uncover market trends, providing actionable insights that resulted in a 15% growth in sales and an increase in customer lifetime value by 10%.
- Spearheaded the adoption of new CRM tools that streamlined customer management, leading to a 25% reduction in customer response time and a 20% increase in customer retention.
- Worked closely with the IT department to ensure seamless integration of business solutions, resulting in a 15% improvement in system uptime and ensuring continuous business operations with minimal disruption.
- Delivered monthly performance reports to senior leadership, highlighting key performance indicators and business health metrics, leading to a 12% increase in strategic investments based on actionable data insights.

Business Associate, Red Hat May 2020 – Jul 2022 | India

- Analyzed current workflows and pinpointed inefficiencies, developing and implementing automation strategies that increased operational efficiency by 15%, leading to a reduction in manual labor and a smoother, faster workflow.
- Collaborated with cross-functional teams to document detailed business requirements, ensuring the successful execution of over 10 projects, while reducing project delays and mismanagement of resources, thereby optimizing the project delivery process.
- Created and maintained interactive Tableau and Power BI dashboards, improving reporting accuracy by 25% and providing real-time insights that empowered teams to make faster, more informed decisions.
- Controlled team meetings and facilitated communication between departments, cutting project turnaround time by 30%, allowing for quicker delivery of solutions and ensuring that deadlines were consistently met.
- Teamed up closely with development teams to align business goals with technological solutions, improving system performance and enhancing project outcomes through efficient cross-functional collaboration.

Education

Master of Science, Management and information systems (GPA 3.9/4) Aug 2022 – May 2024 | Denver, USA
University of Colorado

Projects

Budget Plan Project - Data Analysis and Forecasting | Power BI, Excel, SQL, Strategic Planning |
Led a team to develop a three-year revenue forecasting model using Power BI, enabling effective strategic planning and informed decision-making for the CFO. Delivered actionable growth strategies and performance data visualizations to enhance financial forecasting accuracy.

Sales Performance Analysis | SQL, Tableau, Excel |
Utilized SQL and Tableau to analyze and visualize sales data, uncovering trends and KPIs to guide business strategies and improve sales performance. Created interactive dashboards and detailed Excel reports to streamline decision-making processes for senior leadership.
