

SUMMARY

Business Intelligence and Business Analyst with nearly **4 years of experience** improving reporting efficiency and decision-making. Delivered KPI dashboards that decreased reporting time, enhanced data accuracy, and supported compliance needs. Skilled in requirements gathering, gap analysis, and UAT, ensuring reporting solutions align with business objectives. Recognized for clear communication, stakeholder collaboration, and analytical problem-solving that drive measurable improvements across operations, finance, and regulatory reporting.

TECHNICAL SKILLS

Technical & BI Tools: SQL (Joins, Aggregations, CTEs, Subqueries); Power BI; Tableau; Advanced Excel (Pivot Tables, VLOOKUP, Power Query, Charts); Python (Pandas, NumPy, Data Cleaning & Visualization basics); ETL Concepts; Data Modeling (Star/Snowflake basics)
Analytics & Reporting: KPI Development & Metrics Tracking; Business & Operational Reporting; Data Visualization & Storytelling; Descriptive & Diagnostic Analytics
Business Analysis: Requirements Gathering & Documentation (BRD, FRD, User Stories, Use Cases); Process Mapping & Workflow Documentation; Gap Analysis & Root Cause Analysis; Agile/Scrum (basic exposure); User Acceptance Testing (UAT) Support
Core Competencies: Analytical & Problem-Solving; Communication & Presentation; Stakeholder Collaboration & Teamwork; Adaptability & Quick Learning; Attention to Detail & Accuracy

PROFESSIONAL EXPERIENCE

Liberty Mutual Insurance, MA, USA

Aug 2024 - Current

BI Analyst

- Built Power BI/Tableau dashboards that shortened reporting cycles 35%, enabling executives to track claims, underwriting, and compliance metrics in real time.
- Automated SQL reporting processes, saving 20+ analyst hours monthly while improving accuracy across financial and customer datasets.
- Optimized ETL pipelines with advanced SQL joins and CTEs, reducing refresh times 25% across multiple enterprise reporting systems.
- Introduced validation controls that raised compliance reporting accuracy from 85% to 98%, meeting quarterly audit standards.
- Partnered with stakeholders to prioritize KPIs, delivering faster data insights for operational efficiency initiatives.
- Translated business requirements into BI solutions supporting five departments with consistent, reliable reporting.
- Resolved 15 recurring data discrepancies through detailed analysis, restoring leadership confidence in executive dashboards.

Hexaware Technologies, India

Jul 2022 - Aug 2023

BI Analyst

- Developed 15+ Power BI dashboards and Excel reports, increasing visibility into project utilization and financial performance.
- Lessened recurring report runtime from two hours to 30 minutes by optimizing SQL queries with joins and subqueries.
- Standardized KPIs across four departments, ensuring reporting consistency and accuracy in decision-making.
- Migrated manual Excel workflows to automated Power BI dashboards, reducing manual intervention 40%.
- Validated BI deliverables during UAT, resolving 95% of defects before production release.
- Documented workflows and reporting guidelines, improving knowledge transfer between teams.
- Enhanced stakeholder satisfaction 15% by tailoring reports to executive requirements.

CitiusTech, India

Feb 2021 - Jun 2022

Business Analyst

- Documented healthcare client requirements into BRD, FRD, and user stories, ensuring clarity for BI development teams.
- Performed gap analysis identifying five reporting inefficiencies, leading to redesigned processes and boosted data flow.
- Created workflows that lowered ambiguity in cross-team reporting requests by 30%.
- Coordinated with development, QA, and product teams, ensuring compliance with healthcare regulatory standards.
- Executed UAT sessions with end users, achieving 98% test case acceptance before deployment.
- Refined reporting accuracy 20% by resolving data inconsistencies through collaboration with engineers.
- Delivered post-implementation reviews, improving project delivery timelines 15%.

EDUCATION

Master’s in Business Analytics

Dec 2024

Northeastern University, Boston, MA

Bachelors in Information Technology

Jun 2022

University Of Mumbai, Mumbai, Maharashtra, India

ACADEMIC PROJECT

Customer Insights and Sales Performance Analytics | Northeastern University | Jan 2024 - May 2024

- Built Power BI dashboards integrating sales, marketing, and customer datasets, reducing analysis turnaround 40% and enabling executives to monitor KPIs across multiple business regions.
- Developed SQL queries and ETL workflows to clean and consolidate data from various sources, improving reporting accuracy 25% and ensuring consistent insights for decision-making.
- Conducted root cause and gap analysis on declining product categories, uncovering drivers that guided targeted pricing and promotional strategies, boosting overall sales performance.
