Education

University of Wisconsin - La Crosse

Jan 2024 - Dec 2025

MS. in Software Engineering

Relevant Coursework: Software Modeling and Analysis, Web Development, Software Verification and Validation, Network Security, Software Development Life Cycle, Software Engineering Principle, Software Project Management, Artificial Intelligence

ISMT College – Kathmandu

June 2018 - Sep 2022

BSc. in Computer System Engineering

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Computer Networks

Experience

University of Wisconsin -La Crosse

Jan 2024 - Nov 2024

Graduate Research Assistant

- Designed and implemented Python-based real-time data processing pipelines for radar signals, improving environmental monitoring accuracy by 25%.
- Processed and analyzed 2TB+ of radar data using Python to estimate mayfly abundance and streamline research effort.
- Authored reproducible research code, following structured version control and documentation practices aligned with engineering standards.
- Contributed to cross-functional team meetings to scope deliverables and estimate project timelines.

Search Technology Pvt. Ltd - Kathmandu

June 2022 - Nov 2023

Junior Software Developer

- Developed object-oriented software modules using ASP.NET and C#, contributing to scalable business applications.
- Performed system-level debugging and optimized REST APIs to reduce server latency by 20%.
- Participated in Agile sprints, estimating and tracking progress toward milestones using tools like Jira.
- Collaborated with QA engineers to test and validate core system functionality across multiple releases.

Technical Skills

- Languages & Frameworks:** Java, JavaScript (Node.js, React.js), SQL, MongoDB, ASP.NET
- Tools & Platforms:** Git, VS Code, IntelliJ, Eclipse, NetBeans, Jupyter Notebook, AWS(S3)
- Development Practices:** Object-Oriented Design (OOD), REST APIs, Agile (Scrum), MVC Architecture

Projects/ Research

IEE Research Presentation | 2025 IEEE International Conference on Electro/Information Technology

- Bishal Karki**, Dipankar Mitra, and Rig Das, “On the Processing of Radar Data for Mayfly Population Estimation in the Upper Mississippi River Region (UMRR),” May 29-31, 2025, Valparaiso, IN

Bid Galletria Capstone Project | MERN Stack

Jan 2025 - Present

- Building real-time auction system using MERN Stack focusing on performance, data integrity, and transaction safety.
- Leveraging asynchronous architecture and real-time bid tracking to simulate high-throughput environments.

Involvement

Graduate Student Senate | UWL

Jan 2025 - June 2025

- Advocating for graduate students concerns, leading to implementation of two policy changes benefiting 500+ students.
- Organized 10+ events fostering student engagement and professional development.
