OBJECTIVE

Dedicated Software Engineer with 3 years of hands-on experience in software design, development, and testing. Proven proficiency in Java, Swift, UI/UX design, and debugging, with a commitment to delivering high-quality mobile experiences that surpass client expectations. Skilled in Agile methodologies, collaborating seamlessly with cross-functional teams both nearshore and offshore, to ensure effective communication and timely feature delivery.

SKILLS

Programming Languages	Java, Swift, .Net, C++, python
Web Technologies	HTML, CSS, JavaScript
Mobile Technology	iOS
Database	MySQL, SQLite
Methodologies	Agile, Scrum
Version Control	Git, Github
Other Skills	XCode, Jira, MS Office, Adobe XD

EXPERIENCE

iOS Developer DXC Technology	Jun 2021 - Dec 2022 <i>Hyderabad, India</i>
--	--

- Collaborated with cross-functional teams to transform client requirements and user feedback into innovative features for the United Airlines Mobile app, resulting in a 20% increase in user engagement metrics.
- Implemented improvements to the Compare Fare Types feature, leading to a 20% decrease in customer confusion regarding fare structures and an increase of 10% in Flight bookings.
- Fixed edge-case bugs within the United Airlines Mobile App, ensuring a smoother User experience for customers.
- Improved software development process through implementation of new methodologies, resulting in a 15% increase in productivity and scalability of iOS applications.

Associate Software Engineer 3Insys Software Solutions	Jun 2020 - May 2021 <i>Hyderabad, India</i>
---	--

- Implemented Agile sprint planning and daily stand-ups for the development team, resulting in improved collaboration and efficiency.
- Experienced in Core Java with a strong understanding and working knowledge of Object-Oriented Concepts like Collections, Multi-Threading, Exception Handling, and Polymorphism.
- Used Java8 developed several APIs as per the business cases and analyzed the current API with Spring Boot and Spring Rest.
- Work collaboratively with team members through Git to implement features, fix bugs, and maintain the application.
- Designed test cases and scenarios based on software requirements and user stories to ensure comprehensive test coverage.

Web Developer - Intern Verzeo	Nov 2019 - Jan 2020 <i>Hyderabad, India</i>
---	--

- Utilized HTML, CSS, JS and Django to design and develop a dynamic website for a library management system, resulting in a 30% increase in user engagement and a 20% decrease in page load time.
- Implemented an innovative form design within the website to capture detailed user information, resulting in a 20% increase in data collection accuracy.

PROJECTS

- **United Airlines Application:** Contributed as an iOS Developer to the United Airlines Application, focusing on the Booking module. Successfully addressed and resolved various defects and bugs, ensuring a seamless user experience during the flight booking. Utilized Swift, UIKit, and modern iOS architectures such as MVC and MVVM, following clean architecture guidelines.
- **Library Management System on AWS:** Built a web application to modernize library workflows and enhance user experience like User authentication for secure access control (admin/student) and comprehensive admin dashboard for system monitoring.
- **Visual Cryptography using Python Steptic:** Built secure image-based communication system using the visual cryptography. Encodes messages invisible to unauthorized users, utilizes modular components for both encryption/decryption, and employs key-based access control for enhanced security.

CERTIFICATIONS

- Microsoft Azure AZ-900 Fundamentals: Issued on 2022-02
- Scrum Alliance - Certified Scrum Developer (CSD): Issued on 2022-01
- DXC Technology - Java Full Stack and Mobile Android: Issued on 2021-06

EDUCATION

Master of Computer Science - University of Central Missouri	2023 - 2024
Relevant Coursework: Advanced Algorithms, Cloud Computing, Software Engineering.	
Bachelor of Computer Science - Jawaharlal Nehru Technological University	2017 - 2021
