WORK EXPERIENCE

Fund Launch

College Park, MD (Remote)

Fund Management Intern

Jun 2025 – Aug 2025

- Selected as a Top 10 Intern (out of 160) in an 8-week hedge fund simulation, performing bottom-up asset sourcing, due diligence, and contributing to a buy-side investment memo with an actionable thesis
- Built and evaluated investor targeting strategy by developing a focused LP pipeline of 5+ prospects, leveraging market research and CRM analytics to boost outreach efficiency by 10% and refine go-to-market and capital-raising strategy

ANZ Banking Group Limited

Bengaluru, Karnataka, India

Senior Data Analyst

Sep 2021 – July 2024

- Led analytics initiatives supporting ANZ's transition from on-premises to cloud-native infrastructure, migrating two enterprise Qlik Sense dashboards and reducing dashboard load times by ~20% daily
- Designed executive KPI frameworks tracking top 15 VIP disputes, enabling leadership to monitor service performance and improve monthly forecasting accuracy
- Delivered actionable insights for the Loan Collections team (Abandoned Call %, Grade of Service, Average Speed of Answer), improving agent-level attribution accuracy by ~20% and supporting targeted performance interventions
- Acted as an analytics bridge between business operations and technology teams, improving knowledge transfer across six stakeholders and saving ~2 hours/week through better documentation and alignment
- Partnered cross-functionally across six squads to translate operational pain points into measurable analytics outputs; received recognition from the Head of CSO for impact on service visibility and decision-making

Wipro Technologies

Bengaluru, Karnataka, India

Senior Project Engineer - Qlik Sense Developer (Client: Tier-1 Global Investment Bank)

Apr 2020 – Aug 2021

- Delivered analytics and visualization solutions, enabling portfolio managers and traders to identify performance trends and improve equity decision-making by ~20–30%
- Worked closely with two cross-functional teams to translate trading requirements into actionable dashboards, improving visibility into KPIs and market signals

Project Engineer - Patch Analyst (Client: Leading Life Insurance Provider)

Oct 2017 – Mar 2020

- Reduced 1000+ vulnerabilities on a server; mitigated bugs from server, increasing the speed by 20%

CERTIFICATION

Certificate of Excellence in Executive Programme in Algorithmic Trading (QuantInsti)

Feb 2022

- Applied quantitative techniques for asset allocation, risk management, and performance evaluation
- Used Python-based analysis to support portfolio insights and strategic decision-making

ACTIVITIES

Winner – Masters of The Future 2024 (GradRight) | Finance Case Competition

Mar 2024

Finalist – SMFA Stock Pitch Competition

Feb 2025

DISTINCTIONS

- **Among 30 selected from 1000+ prospects** for the Masters of the Future event organized by GradRight, an analytics and finance retreat with top industry leaders (Mar 2024)
- **Won "Make a Difference" Award** for taking on leadership role of patching activities performed by a senior (2019)
- **Won "Make a Difference" Award** for patching 1000+ vulnerabilities at one time (2018)
