

DATHA VAISHNAVI KONDUR

Data Analyst

New Jersey, USA | +1(908) 427 5960 | Email: kondurdathavaishnavi@gmail.com | [LinkedIn](#)

SUMMARY

- Results-oriented Data Analyst with 3.5 years of expertise in extracting, cleaning, and analyzing complex datasets using SQL, Python, R, and Excel to deliver actionable insights across healthcare, financial services, and technology domains.
- Proficient in building interactive dashboards and visualizations with Tableau, Power BI, and Excel (PivotTables, Power Query, VBA), enabling data-driven decision-making for senior stakeholders.
- Strong experience in data warehousing (Snowflake, Redshift), ETL workflows, and cloud platforms (AWS, Azure), with focus on automation, optimization, and scalable reporting solutions.
- Skilled in statistical modeling, predictive analytics, A/B testing, and machine learning (scikit-learn, TensorFlow), combined with excellent communication and problem-solving skills to translate complex data into clear business strategies.

SKILLS

Programming Language:	Python, SQL, R
Packages:	NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, TensorFlow, Seaborn, ggplot2
Visualization Tools:	Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP)
Cloud Technologies:	AWS (EC2, S3, Redshift, Athena, Glue, DynamoDB), Azure, Snowflake
Database:	MySQL, PostgreSQL, MongoDB, SQL Server
Other Technical Skills:	Machine Learning Algorithms, ETL Tools, Statistics, MapReduce, Alteryx, ANOVA, Hypothesis Testing, Regression Analysis, Advanced Analytics, Data Visualization, Data warehousing, Data transformation, Data Storytelling, Business Analysis, A/B Testing, Forecasting and Modelling, Data Cleaning, Data Wrangling, Informatica, Jira, FRD BRD, Gap Analysis, Cost Benefit Analysis, Risk Analysis, UAT, JAD, Git, GitHub

WORK EXPERIENCE

Horizon Blue Cross Blue Shield | New Jersey | Data Analyst

July 2024 – Present

- Unified EHR, claims, and patient feedback data using SQL, Snowflake, Redshift, Python (Pandas, NumPy), and Excel, improving data accuracy and reducing processing errors by 25%.
- Performed exploratory data analysis (EDA), patient journey mapping, and treatment effectiveness analysis with Python (Scikit-learn, Seaborn) and data warehousing platforms (Snowflake), driving predictive insights that cut hospital readmissions by 18%.
- Designed interactive Power BI dashboards integrated with Snowflake to deliver real-time patient outcomes, quality-of-care KPIs, and population health insights, reducing reporting turnaround by 30%.
- Built and validated predictive analytics models (readmission risk, treatment adherence) using regression analysis, A/B testing, and cloud data pipelines in Snowflake, enabling evidence-based clinical decisions.
- Strengthened data governance and compliance by implementing PHI masking, aligning with HIPAA/CMS standards, and optimizing audit-ready data workflows, contributing to a 12% improvement in quality-of-care scores.
- Delivered data-driven insights on treatment outcomes and population health trends, contributing to a 12% improvement in quality-of-care scores across hospital networks.

Accenture | India | Data Analyst

October 2022 – July 2023

- Optimized medical inventory using SQL, Python, SAP, and Excel, reducing stockouts by 22% and excess stock by 18% while ensuring patient care continuity.
- Automated Tableau dashboards for real-time tracking of turnover, fulfillment, and supplier KPIs, improving reporting efficiency by 30%.
- Cut logistics costs by 12% through TMS/WMS analytics, route optimization, and carrier negotiations, boosting on-time delivery to 97%.
- Applied ABC analysis, Lean, and VMI strategies to streamline replenishment, lowering holding costs by 15% and enhancing supply chain agility.

Wipro | India | Data Analyst

January 2021 – September 2022

- Analyzed merchant transactions and reward redemption patterns via Python, SQL, Snowflake, improving reward efficiency by 18%.
- Built predictive models (A/B testing, cohort, ROI) that boosted customer retention by 12%.
- Automated pipelines with AWS S3, Redshift, Snowflake, cutting data prep by 40% and enabling real-time insights.
- Delivered Power BI dashboards and Matplotlib visuals, accelerating executive decisions by 25%.
- Partnered with marketing and finance teams to optimize campaigns, enhancing merchant engagement and ROI.
- Enforced data governance and compliance using AWS security and Snowflake controls for sensitive financial data.
- Uncovered actionable insights that directly increased program profitability and customer loyalty.

EDUCATION

George Mason University | Virginia, USA: Master of Science in Data Analytics Engineering
G.Narayanamma Institute of Technology and Science | India: Bachelor of Engineering in Computer Science
