

Gowtham Bodempudi

New Hampshire | +1 603-674-7323 | gowtham.bodempudi@jobhuntus.com | [Linkedin](#)

PROFESSIONAL SUMMARY

Quality Assurance Engineer with expertise in manual and automated testing across web, mobile, and API platforms in e-commerce and banking domains. Proficient in Java, Selenium, Appium, TestNG, Maven, Rest Assured, and Jenkins CI/CD. Skilled in functional, regression, performance, and security testing with compliance to PCI-DSS, RBI, and GDPR standards. Experienced in Agile environments, defect management with Jira, and delivering reliable, scalable, and high-quality releases across Android, iOS, and web applications.

TECHNICAL SKILLS

Test Automation & Frameworks: Selenium WebDriver, Appium, TestNG, Maven, Rest Assured, Postman, XCUITest, Espresso, Hybrid automation frameworks (modular, scalable test automation)

Programming & Scripting: Java, SQL (MySQL, Oracle)

Continuous Integration / Delivery (CI/CD): Jenkins, Allure (test reporting)

Testing Methodologies: Manual Testing (functional, regression, exploratory, negative testing), API Testing, Mobile Testing (Android, iOS, real-world condition simulation), Cross-browser Testing (Chrome, Firefox, Safari, Edge), UAT Execution

Performance & Security Testing: Apache JMeter (performance/load testing), OWASP ZAP, Burp Suite (security testing)

Project Management & Collaboration: JIRA, TestRail (test case management, defect tracking), Agile/Scrum Practices (sprint planning, stand-ups, retrospectives)

Compliance & Standards: PCI-DSS, GDPR, RBI guidelines

PROFESSIONAL EXPERIENCES

Quality Assurance Engineer

Verily | USA | Jun 2024 - Present

- Designed and executed 150+ manual test cases for mobile UPI workflows (bank linking, QR payments, transaction history), ensuring compliance with RBI and PCI-DSS standards.
- Built and maintained a hybrid automation framework using Java, Selenium WebDriver, TestNG, and Maven, enabling scalable and modular test automation.
- Automated 200+ functional test scenarios and integrated into Jenkins CI/CD pipelines with Allure reporting, reducing manual QA effort and accelerating regression cycles.
- Performed manual and exploratory testing on Android and iOS, simulating real-world conditions (network drops, low battery, concurrent transactions) to validate stability.
- Conducted API testing with Postman and Rest Assured, validating endpoints for transactions, coupon logic, and order processing to improve backend reliability.
- Logged and tracked 60+ critical defects in Jira, collaborating with developers and product teams to reproduce, resolve, and prevent recurring issues.
- Actively contributed in Agile Scrum ceremonies (planning, daily stand-ups, retrospectives), ensuring high-quality and timely delivery in fast-paced development cycles.

Quality Assurance Analyst

Indium, India | Feb 2022 – July 2023

- Analyzed complex business requirements across e-commerce and banking domains; created 550+ functional, regression, and negative test cases in JIRA and TestRail, ensuring end-to-end test coverage and reducing production defects significantly.
- Designed and developed scalable automation frameworks using Selenium WebDriver, Appium, and Rest Assured, which cut regression cycle time by 40% and improved release velocity.
- Performed cross-browser and mobile testing across Chrome, Firefox, Safari, Edge, Android (Appium), and iOS (XCUITest/Espresso), delivering 95% defect-free releases and ensuring consistent user experience across platforms.
- Conducted API testing and backend validation using Postman, Rest Assured, and SQL (MySQL/Oracle), achieving 100% accuracy in transactions, balances, and order histories.
- Executed performance and load testing with Apache JMeter, validating system scalability for 5,000–10,000 concurrent users, ensuring high availability during peak loads.
- Supported security testing using OWASP ZAP and Burp Suite, while ensuring compliance with PCI-DSS and GDPR standards; proactively identified vulnerabilities and mitigated high-risk issues to protect sensitive data.

EDUCATION

Masters in Computer Science

Rivier University, Nashua, NH

May 2025
