- LaTeX

Derrick is full stack software developer who loves to solve complex technology problems. He takes pride in his excellent communication skills, adaptability to various programming models, and apply these skills innovatively to address real-world problems.

Professional Experience

Bridge 2 Partners | Oakland CA

2023-Present

Software Engineer

- Developed a banking deposit lifecycle application as a full stack engineer.
- Created customized dashboards, forms, and workflows using Microsoft Power Platform, Fabric, and Azure Services.
- Integrated Power Apps with Power Automate workflows and implemented Power BI for real-time reporting.
- Led full-stack development within Temenos Journey Manager and Maestro.
- Automated build processes with Groovy scripts, enhancing project efficiency.
- Managed code repositories, branches, and merges for seamless collaboration.
- Contributed to a Loan Servicing Platform for a startup using React, TypeScript, and Node.js.
- Collaborated with cross-functional teams to meet project objectives.
- Assisted in optimizing database performance and scalability for the Loan Servicing Platform.
- Collaborated with database administrators to address performance bottlenecks.
- Conducted code reviews and facilitated knowledge sharing sessions within the development team.

UC Santa Cruz CS Intern – Strong John Extracts | Santa Cruz

2021

Software Engineering Intern

- Worked as a productive team member to design, code, test, report, and debug operations
- Successfully identified, diagnosed, and fixed website problems like broken links and formatting issues
- Created and oversaw concept mockup and wireframe design to further client satisfaction.
- Curated over 50 website changes to increase the user flow and understanding of all platform capabilities and features.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Created responsive, and functional user interfaces to allow visitors on any device to have the same user experience.
- Evaluated and became knowledgeable in new standards, technologies, and trends in web development

Private Tutor | SF Bay Area

2021

Software Developer

- Applied various teaching styles to personalize student learning
- Improved math assessment scores by developing focused math application skills using real-world examples
- Documented student growth, material mastery, and engagement.

Education

University of California, Santa Cruz

2016 – 2020

BS Computer Science, GPA 3.43

Awards: Dean's List: Winter 2020, East Bay College Fund Scholarship, Oakland Promise Scholarship

Emphases: Data Structures/ ADTs, Algorithm Analysis, Database Management Systems , Web Applications, Multithreaded Programming, Artificial Intelligence
